Now Showing

From Friday, July 11

Maleficent (PG) *Starring: Angelina Jolie, Sharlto Copley, Elle Fanning, Sam Riley, Imelda Staunton and Juno Temple*
"Maleficent" explores the untold story of Disney's most iconic villain from the classic "Sleeping Beauty" and the elements of her betrayal that ultimately turn her pure heart to stone. Driven by revenge and a fierce desire to protect the moors over which she presides, Maleficent cruelly places an irrevocable curse upon the human king's newborn infant Aurora. As the child grows, Aurora is caught in the middle of the seething conflict between the forest kingdom she has grown to love and the human kingdom that holds her legacy. Maleficent realizes that Aurora may hold the key to peace in the land and is forced to take drastic actions that will change both worlds forever.

Blended (PG-13) *Starring: Adam Sandler, Drew Barrymore, Joel McHale, Kevin Nealon, Wendi McLendon-Covey and Kyle Red Silverstein*
After a disastrous blind date, single parents Lauren and Jim agree on only one thing: they never want to see each other again. But when they each sign up separately for a fabulous family vacation with their kids, they are all stuck sharing a suite at a luxurious African safari resort for a week in "Blended," the third comedy collaboration between stars Adam Sandler and Drew Barrymore.

A Million Ways to Die in the West (R) *Starring: Seth MacFarlane, Charlize Theron, Amanda Seyfried, Liam Neeson, Giovanni Ribisi and Neil Patrick Harris*
Seth MacFarlane directs, produces, co-writes and plays the role of the cowardly sheep farmer Albert in "A Million Ways to Die in the West." After Albert backs out of a gunfight, his fickle girlfriend leaves him for another man. When a mysterious and beautiful woman rides into town, she helps him find his courage and they begin to fall in love. But when her husband, a notorious outlaw, arrives seeking revenge, the farmer must put his newfound courage to the test. Starring alongside MacFarlane are Oscar (R) winner Charlize Theron, Liam Neeson, Amanda Seyfried, Giovanni Ribisi, Sarah Silverman and Neil Patrick Harris. MacFarlane reunites many of the filmmakers behind Universal and MRC's hit film Ted including Scott Stuber (Bluegrass Films) and Jason Clark who produce, and Wellesley Wild and Alec Sulkin who co-wrote the script.

22 Jump Street (R) *Starring: Channing Tatum, Jonah Hill, Ice Cube, Dave Franco and Nick Offerman*
After making their way through high school (twice), big changes are in store for officers Schmidt and Jenko when they go deep undercover at a local college. But when Jenko meets a kindred spirit on the football team, and Schmidt infiltrates the bohemian art major scene, they begin to question their partnership. Now they don't have to just crack the case - they have to figure out if they can have a mature relationship. If these two overgrown adolescents can grow from freshmen into real men, college might be the best thing that ever happened to them.

Jersey Boys (R) *Starring: John Lloyd Young, Erich Bergen, Michael Lomenda, Vincent Piazza, Christopher Walken and Freya Tingley*
Clint Eastwood's big screen version of the Tony Award-winning musical tells the story of the four young men from the wrong side of the tracks in New Jersey who came together to form the iconic `60s rock group The Four Seasons. Their trials and triumphs are accompanied by the hit songs that influenced a generation, and are now being embraced by a new generation of fans through the stage musical.

Earth to Echo (PG) *Starring: Teo Halm, Brian 'Astro' Bradley, Reese Hartwig, Ella Linnea Wahlestedt and Jason Gray-Stanford*
Tuck, Munch and Alex are a trio of inseparable friends whose lives are about to change. Their neighborhood is being destroyed by a highway construction project that is forcing their families to move away. But just two days before they must part ways, the boys begin receiving a strange series of signals on their phones. Convinced something bigger is going on, they team up with another school friend, Emma, and set out to look for the source of their phone signals. What they discover is something beyond their wildest imaginations: a small alien who has become stranded on Earth. In need of their help, the four friends come together to protect the alien and help him find his way home. This journey, full of wonder and adventure, is their story, and their secret.

Edge of Tomorrow (PG-13) *Starring: Tom Cruise, Emily Blunt, Bill Paxton, Jonas Armstrong and Tony Way*
The story unfolds in a near future in which a hive-like alien race, called Mimics, have hit the Earth in an unrelenting assault, shredding great cities to rubble and leaving millions of human casualties in their wake. No army in the world can match the speed, brutality or seeming prescience of the weaponized Mimic fighters or their telepathic commanders. But now the worlds armies have joined forces for a last stand offensive against the alien horde, with no second chances. Lt. Col. Bill Cage is an officer who has never seen a day of combat when he is unceremoniously demoted and then dropped -- untrained and ill-equipped -- into what amounts to little more than a suicide mission. Cage is killed within minutes, managing to take an Alpha down with him. But, impossibly, he awakens back at the beginning of the same hellish day, and is forced to fight and die againand again. Direct physical contact with the alien has thrown him into a time loop -- dooming him to live out the same brutal combat over and over. But with each pass, Cage becomes tougher, smarter, and able to engage the Mimics with increasing skill, alongside Special Forces warrior Rita Vrataski, who has lain waste to more Mimics than anyone on Earth. As Cage and Rita take the fight to the aliens, each repeated battle becomes an opportunity to find the key to annihilating the alien invaders and saving the Earth.
