

United States National Support Element Larissa: Force Protection

Everyone reporting to the Larissa area is required check in with the USNSE OIC within 72 hours of arrival. Military personnel, as well as their dependants over the age of 14, must complete the Level I Antiterrorism training prior to arriving in Greece.

Air Force members may access the training at <https://atlevel1.dtic.mil/at/>.

Navy members may access the training via NKO at <https://www.nko.navy.mil/portal/home>

NATO civilian members may access the training at <https://atlevel1.dtic.mil/at/>. Everyone should complete the ATFP Level I Awareness Training for Overseas Service Members (OCONUS). Each member will receive an additional Force Protection briefing at check-in. You will be expected to provide a copy of the certificate of completion for the training for each family member during the Force Protection briefing. As a force protection measure, all U.S. military & DOD personnel are to ensure they have the ability to communicate with the chain of command at all times. Once you are established in Larissa, you should have a working cell phone, landline phone, or email address where the chain of command can contact you.

Noncombatant Evacuation Operations (NEO) - All overseas duty stations that permit dependants to accompany their sponsors must have a NEO plan in place. The NEO is established to evacuate your family members and non-combatants to a safe haven, commonly the United States, in a time of crisis. If you arrive on orders with your family to the Larissa area you will be required to complete NEO paperwork and enroll in the program upon check in. The NEO recall information is not mandatory for unaccompanied military personnel, however, they may register if they desire. You may contact the USNSE OIC with your questions or concerns at 0030-24920-29271 or 0030-69720-79837.
