

Medical Waste CONTINGENCY PLAN

PURPOSE

The purpose of this plan is to enable the sustained execution of mission critical processes for Medical Waste in the event of an extraordinary event that causes these systems to fail. The Medical Waste Contingency Plan will assess the needs and requirements so that Medical Waste may be prepared to respond to the event in order to efficiently regain operation of the systems that are made inoperable from the event.

ORGANIZATION

In the event of an extraordinary event or other circumstances which bring about the need for contingency operations, the normal organization of the Medical Waste will shift into that one of the contingency organization.
