**HARIO SHIMA EXPLOSIVE SAFETY SPECIALIST – T. Fukuoka**

Work phone: 252-5762  
Email: [Takayuki.Fuku.CTR.JA@sasebo.navy.mil](mailto:Takayuki.Fuku.CTR.JA@sasebo.navy.mil)

The explosive safety office is charged with ensuring that all safety criteria pertaining to ammunition and explosives handling, loading, transporting, storing and renovating is done safely and professionally.

The ESO works as a special staff assistant for all explosive safety matters to Commander, Fleet Activities, Sasebo and works directly under the CFAS Safety Manager.

Sasebo has (2) two primary ordnance facilities (Maebata and Hairo Shima) with 600 + acres of land area and over 100 magazines for ammunition storage. Sasebo is the second largest ordnance facility in the Pacific and provides forward deployed naval forces and transient units ammunition support.
