

## NCBC Gulfport Environmental Training Matrix

Work Processes with Potential Environmental Impact			Environmental Compliance Assessment Tracking and Training Systems (ECATTS) Matrix					
CMD/DEPT	SHOP	PROCESSES with Potential Environmental Impact	EMS	Water/Stormwater	SPCC	Hazardous Waste	Air Permit	Solid Waste
CED		Overhaul LARC and SLWT Modules and Equipment Preservation, Vehicle Maintenance, Equipment Preservation, Hydraulic Hose Manufacturer/Repair, Battery Maintenance, Bodywork Repair, Corrosion Maint., and LARC and Heavy Equipment Repair, Battery Maintenance	X	PS	PS	PS	PS & R	R
DENTAL CLINIC		Dental Examinations and Procedures	X				R	R
FIRE DEPT		Emergency Response, Equipment Cleaning/ Maintenance, and Fire Training	X	PS	PS	PS	R	R
MARINES		Vehicles Maintenance	X	PS	PS	PS	R	R
MEDICAL		Medical Examinations and Procedures	X				R	R
MESD		Vehicle Maint. and Repair	X	PS	PS	PS	R	R
MWR	Hobby shop	Vehicle Maint. And Repair	X	PS	PS	PS	R	R
20th SRG		Welding, Range Maint., Grounds Maint., Spent munitions cartridges, firearms maint., Expire/Unused materials, tool maint. & repair, equipment preventive maint., machinery repair, tire replacement	X	PS	PS	PS	R	R
NCTC		air conditioning repair, Automotive Equipment repair, vehicle maint., diesel engine repair, construction lab testing, calibrate/clean fuel injectors, hydraulic pump repairs, heavy chassis maint. And repair, automotive head reconditioning; light chassis systems repairs, plumbing/tubing repair, cable/fiber optics repair, sheet metal fabrication, tearing down and rebuilding transmissions, transmission repair, welding, water treatment	X	PS	PS	PS	R	R
PAO - Photo Lab		photography	X					R
PUBLIC WORKS		woodworking, painting buildings, pavement painting, fertilizer application, pest and herbicide application, equipment cleaning, metal working and structural repairs, vehicle maint., equipment lubrication, water treatment, recycling, building demolition, building renovations	X	PS	PS	PS	PS & R	R
NAVY RESERVE		equipment maintenance	X	R	PS	PS	R	R
FISC/DLA		construct crates and containers, painting and marking crates and containers, military fueling station	X	PS	PS	PS	R	R
DECA		service and repair refrigeration equipment, generator operations and maintenance	X		PS	PS	PS & R	R
NEX		NEX Service Station, service and repair refrigeration and air-conditioning equipment	X	PS	PS	PS	PS & R	R
81st Army			X	PS	PS	PS	R	R
25th NCR			X				R	R
22nd NCR			X				R	R
NMCB 1			X				R	R

## Legend:

X - denotes Required Training

PS - denotes Required Process Specific (PS) Training

R - denotes Recommended Training

## NCBC Gulfport Environmental Training Matrix

Work Processes with Potential Environmental Impact			Environmental Compliance Assessment Tracking and Training Systems (ECATTS) Matrix

NMCB 74			X				R	R
NMCB 133			X				R	R
DHS-CBP			X				R	R
<b><u>MANDATORY REQUIRED TRAINING:</u></b>								
<b>All Personnel:</b>								
- complete ECATTS on-line training modules: "General Environmental Compliance (~20 min)" and "EMS Awareness training (~10 min)"								
<b>Process Specific - Shop/Work Center Supervisor</b>								
- complete annual ECATTS on-line training module "Stormwater - Basic Information (~20 min)" or "Stormwater - Comprehensive Overview (~20 min)" or by obtaining Storm Water Pollution Prevention training video from PWD Environmental Division and maintain training log of viewing for record of completion. Completes other site specific stormwater training if determined necessary by the EV media program manager.								
- complete annual ECATTS on-line training modules "Spill Prevention Control and Countermeasures (~20 min)", "Petroleum, Oils, and Lubricants Management (~10 min)" and "Storage Tank Management (~15 min)", if you maintain and/or operate an oil and hazardous substance storage tank. Completes site specific SPCC training if determined necessary by the EV media program manager.								
- complete annual ECATTS on-line training module "Hazardous Waste Management (~20 min)" if shop/work center uses hazardous material in its work processes and has potential to generator hazardous waste. Completes site specific hazardous waste management training if deemed necessary by the EV media program manager.								
- complete ECATTS on-line training module "Refrigerant (~15 min)", if shop/work center maintains and/or services refrigeration and air conditioning equipment). Complete site specific Clean Air Act (CAA) ozone depleting substance (ODS) recordkeeping and reporting requirements training if determined necessary by the EV media program manager.								
- recommends ECATTS on-line training module "Air/Emissions (~20 min)", if shop maintains and/or operates any stationary diesel and/or natural gas fired combustion equipment (e.g generators, paint booths, etc.). Completes site specific air permit requirements training if determined necessary by the EV media program manager.								
- recommends ECATTS on-line training module "Solid Waste (~20 min)" and "Recycling (~10 min)". All shops and work centers generate solid waste of some kind. Complete site specific solid waste training if determined necessary by the EV media program manager.								
<b>Process Specific - Shop/Work Center Personnel:</b>								
- complete annual ECATTS on-line training module "Stormwater - Basic Information (~20 min)" or "Stormwater - Comprehensive Overview (~20 min)" or by obtaining Storm Water Pollution Prevention training video from PWD Environmental Division and maintain training log of viewing for record of completion. Completes other site specific stormwater training if determined necessary by the EV media program manager.								
- complete annual ECATTS on-line training modules "Spill Prevention Control and Countermeasures (~20 min)", "Petroleum, Oils, and Lubricants Management (~10 min)" and "Storage Tank Management (~15 min)", if shop/work center maintains and/or operates any oil and hazardous substance storage tank. Completes site specific SPCC training if determined necessary by the EV media program manager.								
- complete annual ECATTS on-line training module "Hazardous Waste Management (~20 min)" if shop/work center uses hazardous material in its work processes and has potential to generator hazardous waste. Completes site specific hazardous waste management training if deemed necessary by the EV media program manager.								
- complete ECATTS on-line training module "Refrigerant (~15 min)", if shop/work center maintains and/or services refrigeration and air conditioning equipment). Complete site specific Clean Air Act (CAA) ozone depleting substance (ODS) recordkeeping and reporting requirements training if determined necessary by the EV media program manager.								
- recommends ECATTS on-line training module "Air/Emissions (~20 min)", if shop maintains and/or operates any stationary diesel and/or natural gas fired combustion equipment (e.g generators, paint booths, etc.). Completes site specific air permit requirements training if determined necessary by the EV media program manager.								
- recommends ECATTS on-line training module "Solid Waste (~20 min)" and "Recycling (~10 min)". All shops and work centers generate solid waste of some kind. Complete site specific solid waste training if determined necessary by the EV media program manager.								
<b>Shop/WC designated Hazardous Waste Handlers:</b>								
- complete Navy Safety and Environmental Training Center (NSETC) initial 24 hour Hazardous Substance Incident Response Training (HSIRM) training and the 8 hour HSIRM Refresher training annually thereafter. Complete site specific Hazardous Waste Handler training if determined necessary by the EV media program manager.
