

School Liaison Office NAS Key West

Connecting families, schools and the military community

Welcome to Key West! Our mission is to provide parents and students with relevant information and support that will make transitioning to a new school easier.

Education is an important quality of life issue for military families. In the Florida Keys, we have children of all ages whose parents are assigned to NAS Key West or one of the 27 tenant commands. The School Liaison Officer's main focus is to maximize educational opportunities for military members' children

The School Liaison Officer works with families, school personnel, community partners, and all branches of the military to help ease the many unique challenges that face military students throughout their academic careers.

Assistance provided includes transitioning in and out of schools, understanding deployment, home schooling, preparing for post secondary education, or *any* kindergarten through grade 12 questions or concerns.
