Subject: RE: PAS/CAC upgrade

Mr. Johnson,

Good afternoon. I would like to start by saying thank you for the support you and your team has provided USS NIMITZ with the PAS/CAC program and implementation. We would be very happy to assist with the testing and provide one of our technical experts on the system. However, during the currently scheduled time period, we will be deployed and currently are not scheduled to return until after that testing period is over.

Would it be possible to reschedule the testing for July or add an additional session to which we could contribute?

Ensuring his program's success is greatly in our interest and we would like to provide you with 100% of our support. Again, thank you for all your support so far and we look forward to working with you in the future.

Please do not hesitate let us know how else we might assist considering our current operational schedule.

Thank you for you time.

V/R
