

NAVAL BASE KITSAP ENERGY PROGRAM

Welcomes you to their

Heater Registration Program

- Be Responsible – Register your heater.
- Safety First! Place your heater on a level surface away from foot traffic.
- Avoid placing heater near a thermostat since it will affect the overall temperature of the building leading to energy waste.
- Do not purchase oversized heaters. Select a heater of the proper size for the area you wish to heat.
- Dress for the occasion. Put on another layer before turning on the heat.
- Be sure you comply with the Region’s fire department regulations.
- As a registered heater user, you will receive periodic energy tips which can help you reduce your energy use at work and home.

Did you know?
 The electrical demand for portable space heaters during the winter months at Naval Base Kitsap is estimated to be 2 megawatts.

Save Energy!
 Choose a low watt heater. Recommend using Qmark 202SL. [Click for product information.](#)
