7		INTERVIEW WITH (b) (6)
8		Q=(b) (6)
9		A=(b) (6)
10		
11		
12	Q:	Okay. So today is May 18, 2016. And my name is (b) (6) and I
13		work for Commander Navy Installations Command, Inspector General Office.
14		And I am interviewing (b) (6) . And the case number is 20160-
15		01079. And, um, you already signed the Privacy Act and Confidentiality
16		Statement. Is that correct?
17		
18	A:	Correct.
19		
20	Q:	Yes. And can I have you spell your last name for me?
21		
22	A:	Yes. It's (b) (6) $(6)$
23		
24	Q:	M'Kay. And you understand the tape recorder's running and you're okay with
25	Č.	that?
26		
27	A:	Yes.
28		
29	Q:	Okay. And, um, so there's one more form that I need to have you sign. And
30	χ.	this is just a reminder of the importance of being truthful and candid during an
31		IG interview.
32		
33	A:	Okay.
34		ondy.
35	Q:	And, uh, can I have you raise your right hand?
36	×۰	Thia, an, can Thave you faise your fight hand.
37	A:	Mm-hm.
38	11.	
39	Q:	Do you swear or affirm that the information you will provide is true and
40	×٠	correct to the best of your knowledge?
41		concer to the best of your knowledge.
42	A:	I do.
43	41.	1 40.
44	Q:	Okay. Thank you.
45	χ.	Shaji Mana jour

46 47	A:	There you are.
47 48 49	Q:	Okay. Thanks. So, yeah. Um, the questions I have, like I said, are - are surrounding this Safety Subcommittee Report that was, um, done regarding
50 51		the overtime hours that are being worked by security personnel.
52	A:	Mm-hm.
53		
54 55	Q:	And, um, so I have a copy of this report and I see you - you have yours there, too. It's dated 10 March, right, 2016.
56		
57 58	A:	Correct. Yeah.
59 60	Q:	And, um, here's mine. So first of all I just wanna understand what prompted this. Like, um, why did you do this report?
61	•	
62	A:	I was directed by, um, a Naval Station executive officer.
63 64	0.	Okay. Did
65	Q:	Okay. Diu
66	A:	Um, well by her via e-mail. But it was a, um, designation and it was signed by
67	1 1.	the CO.
68		
69	Q:	Okay. All right. Um, now does this safety committee already exist or was this
70		established just for
71		5
72	A:	No. It was established specifically for this.
73		
74	Q:	So have you done these risk assessments before for anything else or this is the
75		first time you did this?
76		
77	A:	I've done smaller risk assessments for, um, high-risk training and, uh,
78		different evolutions.
79	0	
80	Q:	Just a re- and so that would've been a different subcommittee or
81	•	
82 82	A:	Yeah. It would've been, uh, the Matrix ACM at back. Um, did it on my own,
83 84		uh, let's see - like this right here.
84 85	$\mathbf{O}$	Right - right.
85 86	Q:	Kight - fight.
80 87	A:	It's normally the way they're done.
88	<b>A</b> .	it's normally the way they it done.
89	Q:	Okay. S
90	۲.	

91 92	A:	Um
92 93	Q:	so you've done those for Naval Station Newport before?
94 95	A:	Yeah. For certain job, um, processes and then, like I say, when I was active
93 96 97	А.	duty I did 'em for, uh, high-risk training courses.
97 98 99	Q:	M'Kay. I guess what
99 100	A:	And I do 'em for, uh
101		
102 103	Q:	I was tryin' to understand about this
104	A:	explosive safety.
105		
106 107	Q:	Okay. The committee though, is this - is this a committee that, like, exists all the time and then you just got
108		
109	A:	No.
110		
111 112	Q:	this tasking to do this
112	A:	No. The committee was specifically formed for this task. Um, we, uh - uh, I
113	А.	got this from the previous manager, $uh$ , <sup>(b)</sup> (6) . Um, I had been out of
115		the office for a day or two. You know, I was on leave. I came back to an e-
116 117		mail, um, from him that said, uh, "ORM - explain it to me. XO wants to know about it." And when I talked to him in the office later on, uh, I said, "Your e-
118		mail, you - what do you wanna know about ORM?" You know?
119	0.	Mar has
120	Q:	Mm-hm.
121	۸.	He said "Well the VO wented to know compating about it. I don't quite have
122	A:	He said, "Well the XO wanted to know something about it. I don't quite have
123 124		all the information yet.
124	$\mathbf{O}$	Mm-hm.
125	Q:	14111-1111.
120	A:	But I'll let you know when I get it." Um, and then the next thing - and then he
127	A.	ended up transferring. But the next that come around was, uh, they had an
120		issue with security and she wanted us to ORM it - which is not out of the
130		norm for a safety office. That's
130		norm for a safety office. That s
131	Q:	So
132	×۰	50
133	A:	that's what we do is we - we perform ORM on - on things, you know, along
135		with our other safety duties. Um, so the recommendation through them was to

136 137		form a safety committee. And at that stage in the process the understanding was to just perform an ORM on some of them for security.
138 139	Q:	And that came from the XO?
140		
141	A:	Correct.
142	0	
143	Q:	Now (b) (6) he was the former safety manager?
144	<b>A</b> .	
145	A:	Correct.
146 147	0.	Mm hm And um when did he cand you that a mail asking about the OPM
147	Q:	Mm-hm. And, um, when did he send you that e-mail asking about the ORM, do you remember?
148		do you remember :
150	A:	Uh, it was in, um, February, I believe.
151	11.	on, it was in, ani, i cordary, i beneve.
152	Q:	Of 2016, right?
153	χ.	01 2010, Hghtt
154	A:	Correct.
155		
156	Q:	I assume. Um, and then when did he transfer?
157		
158	A:	I think at the beginning of March.
159		
160	Q:	Oh, so shortly after that. Okay. And so then after he transferred - so it would
161		have been sometime in March that the, um - well this is dated 10 March.
162		
163	A:	Mm-hm. Yeah. It was
164	0	
165	Q:	So
166	۸.	like the lat of March on whatever he transformed
167 168	A:	like the 1st of March or whatever he transferred
169	Q:	That the XO
170	Q.	That the XO
171	A:	or the very end of February he transferred.
172	11.	of the very end of rebraily he transferred.
173	Q:	Okay. And so this Designation Letter that you got from the CO, can you get
174	C.	me a copy of that?
175		15
176	A:	Yeah. I can get you a copy.
177		
178	Q:	Yeah. I think that - here. You (unintelligible)? And that was to you, right?
179		
180	A:	Yes. Uh, each one of us got one - members of the, uh, committee.

181		
182	Q:	Oh. The other person did, too. That's, um, (b) (6)
183		
184	A:	Yes.
185		
186	Q:	or (b) (6) ?
187		
188	A:	(b) (6)
189		
190	Q:	(b) (6) , okay.
191		
192	A:	(Unintelligible). And then (b) (6) and there was another
193		individual - (b) (6), I think her name was - I have to look back. But it was,
194		um - it changed from her to somebody else.
195		
196	Q:	Mm. It was someone else from - she's in HRO, right - <sup>(b)</sup> (6)?
197	X.	
198	A:	Yeah. <sup>(b)</sup> (6) was our HRO contact. And when I e-mailed her with a
199	11.	question she said that she was no longer on the committee - that direct all
200		questions to another individual in their office. She gave me a point of contact.
200		I sent an e-mail.
201		
202	Q:	Could it have been (b) (6) ?
203	Q٠	
204	A:	Yeah. A weird name - <sup>(b)</sup> (6) or
205	11.	fean. At world hame to be of
200	Q:	(b) (6) or something?
207	Q٠	of something.
208	A:	Yeah - yeah.
210	71.	rean - yean.
210	Q:	Yeah?
211	Q.	
212	A:	I think that was it - that, uh, contact (unintelligible).
213	71.	T think that was it - that, un, contact (uninteningiole).
214	Q:	Yeah. I'm not sure how to spell that. But, um, I saw her name, too. And I
215	Q.	think
210		
217	A:	I think that's
218	л.	I think that S
219	0.	she's (b) (6) 's supervisor or something.
220	Q:	she storter s supervisor of something.
	۸.	Vash Iknow it's she mantioned it was her supervisor
222	A:	Yeah. I know it's - she mentioned it was her supervisor.
223	$\mathbf{O}$	Okay Okay So that's the up only people that were on the committee were
224	Q:	Okay. Okay. So that's the, um, only people that were on the committee were those four - yourself. (b) (6) (b) (6) and this (b) (6) ?
225		those four - yourself, $(b)$ $(6)$ , $(b)$ $(6)$ , and this $(b)$ $(6)$ ?

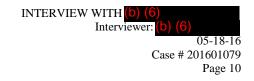

226		
227	A:	Cor <u>rect. Y</u> eah, (b) (6) or (b) (6) whatever her name was, and then,
228		uh, (b) (6) .
229		
230	Q:	Okay. And no others?
231		
232	A:	Correct.
233		
234	Q:	Okay. Um, so do you know what prompted the XO to establish this
235		committee?
236		
237	A:	Not at first. Not until, um, about halfway into the process. And then it was my
238		understanding it was - I had heard talk of it was an IG complaint made about
239		overtime. And they wanted to - uh, wanted us to ORM the issue.
240		
241	Q:	They being?
242		
243	A:	The chain of command.
244		
245	Q:	The XO, CO?
246		
247	A:	Yeah.
248		
249	Q:	Is that who you mean?
250		
251	A:	Yes. The XO
252		
253	Q:	Mm-hm. Yeah.
254		
255	A:	and CO - the chain of command.
256		
257	Q:	Okay. All right. Okay. So had Safety ever evaluated the risk associated with
258		overtime prior to this or this was the first time that you
259		
260	A:	No, I haven't. And - and nobody presently in my office has.
261		
262	Q:	Okay. How long have you been working here?
263		
264	A:	Six years - a little over six years.
265		
266	Q:	Okay. So this was the first time that this type of evaluation was done.
267		
268	A:	Yes.
269		
270	Q:	Okay. Um, okay. So in the report I have a couple questions about - eh, just to

271 272 273 274		clarify what you were referring to. Um, it says in the cover letter that, "Several billets have been or are in the process of being filled, which will greatly reduce the overtime." Which billets were you talking about when you say several billets?
275 276 277 278	A:	Um, that's - I was talkin' with, uh, (b) (6) . He was the acting, uh, security director at the time.
279 280	Q:	Okay.
281 282 283 284 285 286 287 288	A:	Um, yeah, on the first page there. It was, uh - I can't remember the exact number - seven (unintelligible). They had a couple patrolmen that they had hired - new hires. And, uh, they had one of two of 'em onboard waiting to go to flexi. There was a couple going to flexi. And they were - I think they were waiting. There was a mix. They were waiting for, um, maybe a couple to accept their paperwork there - the paperwork to, uh, finalize. I can't remember the exact numbers. But, uh, he was tellin' me that they had a couple patrolmen
289 290	Q:	Okay. So when
291 292 293	A:	(unintelligible).
293 294 295 296	Q:	you're talking several billets, these meant non-supervisory patrolmen billets. Not
290 297 298	A:	Yes.
299 299 300	Q:	supervisors, right?
301 302	A:	Correct.
303 304 305 306	Q:	Okay. Okay. And then it said, yeah, "With the addition of the aforementioned billets, the OT concern would be resolved." So meaning once they hire more patrolmen?
307         308         309         310         311         312         313	A:	Yeah. 'Cause it - the, um - the biggest overtime that they were, uh - when I talked to (b) (6) - when I originally - when I was talking with (b) (6) - when I originally - when I was talking with (b) (6) - when I was 'cause it was few of 'em. But talking with (b) (6) - when I was the, uh, patrolmen that they had more issues with, I guess.
314 315	Q:	Oh.

316 317	A:	I don't know. I - I don't understand why they were
318 319	Q:	And did you actually look at the timecards at all, like, in (Socata) to see
320 321	A:	No. They didn't have access to them.
321 322 323	Q:	Who was - who was
324 325 326	A:	We looked at, um, the shift. He brought over the, uh - like, the weekly shift log or whatever it is
327 328	Q:	Yeah.
329 330	A:	that shows how they - they rotate through and explained it.'
331 332 333	Q:	So (b) (6) said that overtime concerns were more related to non-supervisory people?
334 335	A:	Yes.
336 337 338	Q:	M'Kay. So that - I mean, I could see - I did look at the (Socata) and there was, um, a lot of overtime with the supervisors. So
339 340 341 342	A:	Yeah. I mean, when I did the initial report, like, in the notes I think I - what did I say the number - it was a couple hundred thousand dollars or something
343 344	Q:	Oh, yeah.
345 346	A:	and, like
347 348	Q:	Yeah.
349 350	A:	half of that was for supervisors.
351 352	Q:	Right. And they work in these really long shifts - like, 16 hours straight.
353 354	A:	Yeah - yeah. Well yeah.
355 356 357	Q:	Um, that was - I didn't even look at the non-supervisors. I only look at supervisors. So the fact that $(b)$ (6) told you there was also - uh, obviously also a problem with the non-supervisors, too.
358 359 360	A:	Mm-hm.

361 362	Q:	So maybe it was both. Um, okay.
363	A:	And then the other billet he was, um - the day I talked to him he was actually
363 364	л.	just finished - $\binom{(b)}{(6)}$ had just finished, um, routing an e-mail
365		requesting, um, two additional supervisor billets.
366		requesting, and, two additional supervisor offices.
367	Q:	Okay.
368	ų.	Ondy.
369	A:	Yeah.
370		
371	Q:	Eh, say that again now. He finished routing an e-mail, what, requesting two
372	C .	or
373		
374	A:	Yeah, the announcement of, um - basically to, uh - the approval to announce
375		two more, um, supervisory billets.
376		
377	Q:	Oh. Do you have that e-mail?
378		•
379	A:	No. I don't have it. It's he routed it to the, uh - the XO and on whoever he
380		routed it through on his end.
381		
382	Q:	Okay. So
383		
384	A:	Um
385		
386	Q:	I have to talk to him.
387		
388	A:	yeah. His (unintelligible). Let's see.
389		
390	Q:	And he told you that he did that? You didn't actually see the e-mail?
391		
392	A:	No - no. Uh, he kinda turned his monitor and that. But I was sittin' a ways
393		away. I couldn't read it.
394	0	
395	Q:	Okay.
396		<b>x7 1 1</b> , , <b>1'</b> , <b>1</b>
397	A:	Yeah. It was two new hires currently in flexi, another eight individuals had
398		begun the hiring process, and then additionally as of 1 March two additional
399 400		supervisory positions are being vetted for the hiring process.
400	0.	Oliver
401 402	Q:	Okay.
402 403	A:	So that was, um
403	л.	50 mat was, um
404	$\mathbf{O}$	So do you know if they actually have announced those jobs at this time
+05	Q:	so do you know it mey actuary have almounced mose jobs at this time

406		
407	A:	No, I don't.
408	<b>A.</b>	
408	0.	those two supervisory jobs?
409	Q:	tilose two supervisory jobs?
	۸.	I I didn't fallow it And to be barast you the further I actinte the woods on
411	A:	I - I didn't follow it. And, to be honest, um, the further I got into the weeds on
412		this, um, the more harbor I have with it.
413	0	
414	Q:	Can you explain what you mean by that?
415		
416	A:	Oh, when I - I was first asked I thought it was to perform an ORM of, um,
417		safety concerns with overtime.
418		
419	Q:	Yes.
420		
421	A:	Um, and you can see - you
422		
423	Q:	Which I thought you did a good job of capturing.
424		
425	A:	you can see that's what I - that's what the report it. But, um, going back I -
426		when I first read the designation letter, you know, that's what jumped out at
427		me. That's what I was already thinking. And it was my bad. But when I went
428		back and read it the bottom paragraph was, um - I can't remember exact
429		wording, but they basically um, said, "Develop a formal process to basically
430		control overtime and set overtime." And I felt that that was, uh, a management
431		issue - that's not a safety issue.
432		
433	Q:	I agree. Yeah. I agree.
434		
435	A:	And that should've been handled either at the security level. And if it couldn't
436		have been handled at that level then it should've been moved up to the next
437		logical level which would've been the CO-XO level.
438		
439	Q:	Mm-hm - mm-hm.
440	<b>X</b> ·	
441	A:	And that was explained to the, uh - when we submitted this package to the XO
442	11.	that was, um, expressed then that it - that it was outside of our - our scope of
443		duties, our training, and, um, we - so, therefore, we did the best we could
444		making recommendations on that. But it would take security to agree on that
445		and implement it and approve from (unintelligible).
446		and implement it and approve from (unintenigiote).
447	Q:	Now I understand. Yeah. You had a comment to the - a caveat to that effect
448	ų.	Tow Funderstand. Fean. Fou had a comment to the - a caveat to that effect
449	A:	Yes.
449	11.	100.
430		

451 452	Q:	in here.
453	A:	Yeah. I couldn't - I was tryin' to (unintelligible).
454 455 456	Q:	Yes. And I understand now what you mean. Um
457 458	A:	Mm-hm.
459 460	Q:	Okay.
461 462	A:	(Unintelligible).
463 464 465	Q:	So it's up to - Safety's role would be to identify the risks and hazards associated with people working on only three hours of sleep or whatever.
465 466 467	A:	Correct. That's when you
467 468 469	Q:	While - while
470	A:	you look at the - the Matrix and it does just that.
471 472 473	Q:	Yes. And I thought that was very helpful. Eh, but as far as making recommendations for how to rotate people
474 475 476	A:	Correct.
476 477 478	Q:	through a schedule and stuff like that, that is not your
479	A:	That's not ours, no.
480 481 482	Q:	You just want them to know these are the risks you're taking on by
482 483	A:	These are the hazards, these are - this
484 485 486	Q:	having people work this much
487	A:	is associated with
488 489 400	Q:	overtime.
490 491 492 493 494 495	A:	Correct. And these are ways to mitigate those hazards. And if you look at the - the Matrix, um, it kinda talks about qualified personnel that would be, you know, hiring additional bodies - you know, having a sufficient number of personnel to do the job that's always, uh, a big issue. Um, but we - we left it all on the plate for, um, the shift supervisory and security director and the

496 497		personnel within that department to - to implement - supervise.
498	Q:	Okay. So I - I did see that you made a lot of what I thought seemed like good,
499	ζ.	reasonable recommendations. The over-arching one being that they should
500		hire more people. Is that accurate? Did you intend for - 'cause it doesn't
501		actually say that (unintelligible) sub-categories. But it said it in the summary
502		that, um
503		
504	A:	Yeah. Uh
505		
506	Q:	Multiple times I heard, uh, with the addition of more billets the overtime
507		concern would be resolved.
508		
509	A:	Yeah. It's mentioned a couple times within the Ma- um
510		
511	Q:	Additional manpower support.
512		
513	A:	step three.
514		
515	Q:	Yes. Provide
516		
517	A:	(Unintelligible).
518		
519	Q:	additional manpower support. It says that every time. Yeah. So do you know
520		if they have actually hired - that's what I was - uh, you said it was in process.
521		But
522		
523	A:	At the time when I talked to him - so that was as of 1 March - um, it was
524		(unintelligible) body (unintelligible) began the hiring process and, you know,
525		reflects the vetting process to begin for two supervisory personnel.
526	0	
527	Q:	Right. So
528	•	
529	A:	I don't know if any
530	0.	
531	Q:	have you done any follow up after this to see where they stand now or
532	۸.	Leave it the VO on the the 10 March was a Friday. So that would'us have
533	A:	I gave it the XO on, uh - the 10 March was a Friday. So that would've been
534		the day they gave it to her. And, um, she was not happy with it.
535 526	0.	Wheel
536 537	Q:	Why?
537 538	A:	Said it wasn't what we were tasked with And she wanted us to go back and
539	л.	Said it wasn't what we were tasked with. And she wanted us to go back and redo it. I told her, um - she didn't wanna pi- a formal process. I told her that it
539 540		was outside of our scope of duties. Um, our job is to make recommendations.
5-10		was outside of our scope of duties. On, our job is to make recommendations.

541 542 543 544 545		Um, she asked if <sup>(b)</sup> (6) had, um, been involved. I said, "Yeah. We had one meeting with him to get the information. You know, and we interviewed, uh, <sup>(b)</sup> (6) and this is what we came up with." We sat down and hashed out the, um - the hazards and the risks and
546 547	Q:	Why did she ask if
548 549	A:	(unintelligible).
550 551	Q:	if (b) (6) had been involved, do you know
552 553	A:	No, I don't.
554 555	Q:	what she was getting at with that? Like
556 557 558 559	A:	No. But sh- um, she kinda went off sayin' that if he wasn't cooperatin' or whatever that, um - that she would, uh - there's ways that she could make him cooperate.
560 561	Q:	Cooperate with what, though? I mean
562 563	A:	The committee.
564 565	Q:	Yeah.
566 567 568 569 570	A:	It's basically she - she thought that he wasn't helping us out or being involved in, uh, the committee. I said, "Yeah, it was." I mean, uh, we got all the information we needed from him. Then it was up to us to go back and, um, go through it and hash it out between myself and (b) (6) on the safety board.
571 572	Q:	So you felt like he was cooperative.
573 574 575 576 577	A:	Yes. Yeah - yeah. I mean, he gave - he gave plenty of information. And what I did tell her was I felt that it was, um, biased. 'Cause by that time after I had talked - spoken to him and then $\binom{(b)}{6}$ (6) (6) (7) (6) (7) (6) (7) (7) (7) (7) (7) (7) (7) (7) (7) (7
578 579	Q:	Mm-hm.
580 581 582 583	A:	And I relayed that to the XO. I said, "Well I think that's kinda biased - that it kinda set us up, uh, having him in there if we're trying to fix something - having him involved. It should've been somebody else."
584 585	Q:	Right - somebody neutral.

586 587	A:	She wanted him involved for that reason, I guess.
588	Q:	Oh.
589		
590 591	A:	Um, when we did give her the package, like I said, she wasn't happy with it. She wanted an actual formal process. Um
592	0	
593 594	Q:	When you say for that reason, you're saying the XO wanted him involved because of the fact that he was one of the complainants?
595		
596 597	A:	Yes.
598 599	Q:	Okay.
600	A:	She directed, um, me to take what I gave, er, her - the package that I
601	11.	developed - give it to $(b)$ (6) and have him implement a formal process
		for overtime. And if he didn't then she could reprimand him via, I don't know,
602		
603		the two ways that he can be reprimanded - performance or
604	0	
605 606	Q:	So - but the
607	A:	(unintelligible).
608	11.	(unintenigioie).
609	Q:	issue is, eh, she's asking for a formal process to manage the overtime. Is that
610	×۰	what you're saying
611		what you to suying
612	A:	Yes.
613	л.	1 es.
614	$\mathbf{O}$	and just to clarify? But isn't the issue - from what I read in your report and
615	Q:	
		in - in the complainants' complaint and in the Command Report done by
616		(Senurma) which you probably didn't see
617	۸.	No. I didu't and onething
618	A:	No, I didn't see anything.
619	0	
620	Q:	but there's consistency that everyone seems to agree that the solution to this
621		is to hire more people and that it's just not manageable without doing that.
622		That's what I'm h- seeing.
623		
624	A:	It's not, yeah. I mean, and lookin' at it that's what I - I mean
625	_	
626	Q:	So to come up with a formal process
627		
628	A:	(Unintelligible).
629		
630	Q:	to manage the overtime, the process is hire more people.

60.1		
631		
632	A:	(Unintelligible) it wasn't gonna happen. Yeah. Okay. This is an e-mail - after I
633		had - I had went back and talked to (b) (6) and, um, (b) (6) ,
634		um, (b) (6) sent this out to his watch commanders and patrol
635		supervisors. (Unintelligible) FOs and (unintelligible).
636		
637	Q:	Oh, this was to try to manage the overtime a different way? Is that what
638	Č.	,
639	A:	No. That was after my meeting.
640	11.	ivo. That was after my meeting.
	0.	Ob your after your
641	Q:	Oh, your - after your
642		
643	A:	Yeah. So
644		
645	Q:	finding.
646		
647	A:	after I gave her the report she wasn't happy with it.
648		
649	Q:	Okay. Okay. So would you say this accurately ca- characterizes your
650		perception of the meeting that you had with him? I mean, do you concur with
651		this information in here?
652		
653	A:	Yeah.
654	11.	1 0uii.
655	Q:	Yeah?
656	Q٠	1 cuit.
657	A:	Yeah. Uh-huh.
658	А.	
659	0.	I maan Linst wanna maka sura you'ra not saving "Oh wow How some
	Q:	I mean, I just wanna make sure you're not saying, "Oh, wow. How come (b) (6) would say all these things are not really true?" But this is true.
660		a = a = a = a = a = a = a = a = a = a =
661		correct?
662		
663	A:	Yeah. Basic- uh, she, um - this right here, um, she did tell me to send the
664		report to (b) (6) and have him come up with an SOP to fix the
665		overtime problem. Um, and basically told me to keep her informed if he didn't
666		cooperate - she had ways of making him. And then she asked, "What is it - the
667		two ways you can reprimand somebody? You know, is it performance and"
668		
669	Q:	Conduct.
670		
671	A:	I was like - eh, yeah - yeah.
672		
673	Q:	(Unintelligible).
674	<b>X</b> ·	(Chintengiote).
675	A:	So she was, "Well I'll do that. I'll, uh, force him." After this, uh, I went back
015	41.	so she was, wen't it do that i ii, an, force init. After this, an, i went back

676 677 678		with security and I talked to, um, <sup>(b) (6)</sup> and, uh, <sup>(b) (6)</sup> . Um, and then this e-mail came out.
679 680	Q:	Uh-huh.
681 682 683	A:	But, um, I even told him - I said, "If - if <sup>(b)</sup> (6) needs any help drafting that - you know, I mean, questions on the report - it's there."
684 685	Q:	Yeah.
686 687 688	A:	You know? Um, that's not my job to tell another department how to manage their personnel. I'm not even a
689 690	Q:	Yeah. That right
691 692 693	A:	supervisory position myself. Um, but we can help on the safety aspect as best as possible.
694 695	Q:	Okay.
696 697	A:	Um, and from there it ended. I didn't hear anymore.
698 699	Q:	So did you tell
700 701	A:	Yeah. So, uh
702 703	Q:	the XO that, that it's not your job to tell another department
704 705	A:	Yes.
706 707	Q:	Yeah. Okay. You clarified that. Yeah.
708 709 710 711 712 713 714	A:	I told her that in the meeting, yeah. Um, she - I think she - I can't remember how many additional days she gave him to get the report done. I think it was, like, another week, I believe. And, uh, something along a week or two - 'cause I was gettin' ready to go on leave to Europe. And I sent an e-mail out to these guys saying, you know, "I - I know you all have - have it. Um, if you need anything just let me know."
715 716	Q:	Mm-hm.
717 718 719 720	A:	And I didn't hear anymore after that. The XO didn't follow up with me on it. I guess she just turned to security to finalize the task. But as far as I was concerned, myself and, um, (b) (6) had fulfilled the - the safety aspect of the, uh - the project. And with the XO not comin' back to me on it, pretty

721		much, you know, solidified it.
722 723 724 725	Q:	Okay. So after you explained that to her - that that was really outside the scope of what the responsibilities of safety are
726 727	A:	Mm-hm.
728 729 730	Q:	to actually tell another department how to schedule their people - after that she - it seemed like she sort of accepted that and she never went back to you?
731 732	A:	Nope.
733 734	Q:	Mm-hm.
735 736 737	A:	She, um, checked back with me, I think, one more time on if security was gonna get a new report.
738 739	Q:	Okay. Do you know if they did provide her a report?
740 741	A:	No, I don't.
742 743 744 745	Q:	You don't know. And, um, right. So I think this report does a good job of describing some of the things that could happen when you're working multiple 16-hour days in a row.
746 747	A:	Yeah. Correct, yes.
748 749 750	Q:	And - and not only happen to the person but to the mission. And - and I - you pointed out that these people are responsible for firearm safety
751 752	A:	Mm-hm.
753 754 755	Q:	on limited sleep and so forth. And, um, I think that's all important. So there's no - it seems pretty clear that the - it's - it's a problem. The - the
756 757	A:	Yeah.
758 759 760 761	Q:	question is how are we gonna resolve it. So that's what I was kinda of wondering if you did any follow-up to find out if, um, they actually have made forward motion on hiring more supervisors.
762 763	A:	No. I - I - I didn't follow-up on it. Um
764 765	Q:	Okay.

766 767 768	A:	like I said, it was right before I was gettin' ready to go on, uh, leave to Europe.
769 770	Q:	Yeah.
771 772 773 774 775 776 777 778	A:	Um, I just assumed, you know - probably the wrong approach. But I assumed that, um, the XO had gotten the report from (b) (6) and they were gettin' their new hires onboard. 'Cause that's exactly, um, the way (b) (b) (6) felt. He was like, you know, "Once we get these bodies onboard by, you know, September, October of this year this will be a - a completely new issue. 'Cause I'll have all the bodies onboard, they'll all be trained up, and they'll be on the street and this will be done."
779	Q:	So somebody - who - who said that - uh, (b) (6)?
780 781 782	A:	Chief - yeah, <sup>(b)</sup> (6)
783 784 785	Q:	That he ex- is he actually expecting that they'll have the bodies by September?
786 786 787	A:	Yeah. Uh, that's
787 788 789	Q:	That's his expectation?
790 791	A:	what he believed. Yeah.
792 793	Q:	Yeah?
794 795	A:	I mean, we - there was two bodies in flexi and eight being hired and
796 797	Q:	But the two that are in flexi are not supervisors, are they?
798 799 800	A:	No. But it was - I - he knows how his people work. He knows how the shifts rotate and that. So, I mean
800 801 802	Q:	And
802 803 804	A:	he's essentially a better expert.
805 806 807	Q:	Yeah. So do we know if there's any supervisors that are gonna be hired or just more patrolmen?
808 809	A:	Those two additional that I mentioned.
810	Q:	They're all gonna be supposedly ch- okay.

811		
812	A:	That were - he requested to be vetted. And that was in the, uh, step three, I
813		believe, of the report.
814		
815	Q:	Okay. Right. And they were requested by (b) (6)
816		
817	A:	Correct.
818		
819	Q:	Is he still here?
820		
821	A:	Yeah, he's still here.
822		
823	Q:	Okay. I'm gonna have to talk to him. Okay. So all you know, though, is that
824	Q.	he requested it. You don't know whether - what kind of response he got. Did
825		it say that they were approved?
826		it say that they were approved.
827	A:	No. He was - he was awaiting on it.
828	11.	No. The was the was awarding on it.
829	Q:	Okay.
830	Q.	Okay.
831	A:	That - that he had, um - I don't understand the hiring process, how it works.
832	11.	But from what I understand right then when he was trying to explain it to me
833		is that he had gotten the approval from, uh, regional security.
834		is that he had gotten the approval from, and regional security.
835	Q:	M'Kay. But then maybe it has to even go to CNIC?
836	Q٠	W Ray. Dut then maybe it has to even go to ertie :
837	A:	But I think, yeah - I think it has to go up further. And then they, um - they
838	11.	write up the announcement and then announce it. But he was fairly confident
839		that he was gonna get those two additional supervisory billets.
840		that he was gointa get those two additional supervisory offices.
841	Q:	Okay.
842	Q.	Okay.
843	A:	(Unintelligible). As of 1 March 2016, two additional supervisory positions are
844	11.	being vetted for the hiring process.
845		being vetted for the mining process.
846	Q:	Yeah.
847	Q٠	i can.
848	A:	So they were working that through the chain of command to get approved
849	71.	then.
850		
850 851	$\bigcirc$	Right. Okay. So all together there's, like, ten new patrolmen - eight that were
852	Q:	pending, two were at flexi.
852 853		
855 854	A:	Correct.
855	Δ.	
055		

856 857	Q:	So that's ten non-supervisory.
857 858 859	A:	Correct.
859 860 861	Q:	And two supervisory
862 863	A:	Correct.
864 865 866	Q:	all together. Okay. So right now since they haven't hired these two people yet, the OT is probably still a problem.
867 868	A:	Probably still an issue. Correct.
869 870 871 872	Q:	Do you know if they're doing any of the other types of things that you recommended like these, um, safety briefs at the beginning of each roll call and
872 873 874 875	A:	Yeah. I know that they do - do those. Um, I wrote that in as, um, more of a - a reinforcement.
876 877	Q:	Right.
878 879	A:	Uh, it continued.
879 880 881 882	Q:	Okay. So you know they are doing that? I mean, have you - they reported to you that they took on some of these mitigating ideas that you offered?
883 884	A:	I know they - they do - do, um, briefs when they do, uh, changes.
885 886	Q:	Mm-hm.
887 888 889 890	A:	I sat in on one of the shift changes, uh, a couple years back. So - and they do give, um, briefs when they - when they switch over - the watch commanders do.
890 891 892	Q:	But they've always been doing that.
892 893 894	A:	Yeah.
894 895 896	Q:	Yeah. So it's not anything
897	A:	No. These are
898 899 900	Q:	I guess what I'm wondering is has anything actually changed because of the

901	A:	I don't believe so, no.
902 903	Q:	Mm, no?
904 905 906 907 908	A:	They can - it's - it's up to them to - I can only make the recommendation. I can't force them to - to change their operations. And this - it's just an outside set of eyes making recommendations from the
909 910	Q:	Right. So it's not like you - there's any directive to implement these controls. It's just
911 912 913	A:	Exactly, yeah.
913 914 915	Q:	you're telling them
916 917	A:	It's just a recommendation.
918 919	Q:	"These are things that might help you."
920 921	A:	Yep.
922 923	Q:	And you don't follow up to see whether or not they actually did implement
924 925	A:	No.
926 927	Q:	No. Okay.
928 929 930	A:	Like I said, I'm - I'm the - the explosive safety officer for the station. So right now I'm neck deep in gettin' ready for the big ESI next week.
931 932	Q:	Oh. Yeah.
933 934	A:	So this kinda got
935 936	Q:	I don't wanna keep you too long.
937 938 939	A:	pushed to the side. And I really didn't wanna get as involved with this as I became throughout this process. So I just - I knew it was gonna turn up.
940 941 942	Q:	Well yeah. But, I mean, as a subject matter expert in safety and issues that can, like, increase
942 943 944	A:	Mm-hm.
945	Q:	your potential for mishaps at work and stuff like that

946		
947	A:	Yeah.
948		
949	Q:	I thought this definitely captured that
950		
951	A:	(Unintelligible).
952		
953	Q:	well. Um, is this kinda thing documented in ESAMS that - that
954	C C	
955	A:	No. There's no
956		
957	Q:	high-level risks exist at that organization or is that something that could
958	χ.	iningi lever risks erist at that organization of is that something that couldn't
959	A:	Mm.
960		
961	Q:	be in there?
962	×٠	
963	A:	No. ESAMS what we put in is, um, like, our inspections.
964	11.	10. Lor titlo what we put in is, uni, ince, our inspections.
965	Q:	Mm-hm.
966	Q٠	14111-11111.
967	A:	Um
968	л.	
969	Q:	Okay.
909 970	Q.	Okay.
970 971	A:	somethin' that would document that hazards would be, like, a JHA - a job

973 074	0.	Mm hm
974 075	Q:	Mm-hm.
975 076	۸.	Um a (variatelligible)
976	A:	Um, a (unintelligible).
977	0	To that as mothing, that sould be done with the definition this second is with the
978	Q:	Is that something that could be done with - in this scenario with the
979		
980	A:	They could. I mean, in essence that's what the, uh - the Matrix is. It's pretty
981		much a job hazard analysis. Um, I think the last ones done were when I came
982		onboard. There's no mandate that I know of to have 'em done on a regular
983		basis. I could be wrong. But it was, um - when they were done in 2010 I took
984		it on just as busy work while, um, I was waitin' to get qualified to be an
985		inspector.
986	0	
987	Q:	What - what is a job hazard analysis? Is that by each position or, uh
988		•
989	A:	Yes.
990		

991 992 002	Q:	like, so - so you would take one of these supervisors who's working 16 hours a day and do a job hazard analysis just on him?
993 994	A:	Yeah. You would sit down - um, on the position.
995 996 997	Q:	On the p- yeah. That's what I mean.
997 998 999	A:	Yeah.
1000 1001	Q:	On the position.
1001 1002 1003	A:	So, I mean, if he had
1003 1004 1005	Q:	So on those five positions - those
1005 1006 1007	A:	It will be
1007 1008 1009 1010	Q:	five supervisory positions, could each have their own job hazard analysis done feasibly?
1010 1011 1012	A:	No. It would one that would be for
1012 1013 1014	Q:	Oh, it would be on that would
1014 1015 1016	A:	Yeah.
1010 1017 1018	Q:	cover all of 'em.
1018 1019 1020	A:	You would touch base with each and every one and just do a
1020 1021 1022	Q:	So it's similar to
1022 1023 1024	A:	a combined
1024 1025 1026	Q:	this. But it's something that
1020 1027 1028	A:	Exactly.
1028 1029 1030	Q:	would go in ESAMS and get reported.
1030 1031 1032 1033	A:	Uh, no. We never put those in ESAMS. Those we're, um - it was at, uh, the old manager. And it was, uh, a - it was done on paper.
1033 1034 1035	Q:	Okay.

1036	A:	We have a
1037 1038	Q:	I guess that's what - what I'm - I'm asking is
1039 1040	A:	(unintelligible) one job.
1041		
1042	Q:	there's some sort of mechanism
1043	۸.	There is a
1044 1045	A:	There is a
1045	Q:	for something that would go in ESAMS that
1047	<b>X</b> .	
1048	A:	I think there is a
1049	-	
1050	Q:	identifies this?
1051	۸.	portal for ich hazard analysis in ESAMS. But uh wa've never used it
1052 1053	A:	portal for job hazard analysis in ESAMS. But, uh, we've never used it.
1055	Q:	Oh, okay.
1055	Č.	
1056	A:	Use it, like I said, um, for inspections and, um, mishaps and training.
1057	0	
1058	Q:	Okay. We just don't know if that might be another option of something that
1059 1060		could be done to document - further document the risks associated with the
1000	A:	Mm-hm.
1061	11.	14111 1111.
1063	Q:	amount of overtime that's required, um, and maybe prompt some
1064		
1065	A:	Some of the (unintelligible).
1066	0	
1067 1068	Q:	corrective action. You know? Um, eh, do you have much interface with any of the other safety managers from different installations through the region?
1069		of the other safety managers from different instantations through the region?
1070	A:	Um, (b) (6) down in, uh, Groton.
1071		
1072	Q:	Yeah - yeah. I know 6.
1073		
1074	A:	He's - he's
1075 1076	0.	Yeah.
1070	Q:	i can.
1077	A:	the ESO down there as well.
1079		
1080	Q:	I - I guess the reason I ask is have you ever heard that this type of issue exists

1081		at other installations?
1082		
1083	A:	Um, Saratoga - Saratoga Springs, New York. But I'm the (b) (6) for up
1084		there.
1085		
1086	Q:	Okay.
1087		
1088	A:	So the security director's always yellin' at me, "Eh, I have no bodies. I have
1089		no"
1090		
1091	Q:	His name is (b) ?
1092		
1093	A:	(b) (6)
1094		
1095	Q:	Yeah.
1096		
1097	A:	Yep.
1098		
1099	Q:	Yeah.
1100		
1101	A:	Because I'm always yellin' at him about his (unintelligible) program and he
1102		says, "Well I don't have the bodies."
1103		
1104	Q:	So do they have people workin' a lot of overtime there in security too?
1105		
1106	A:	I don't know. He's a, um - I think he manages his people pretty well.
1107		
1108	Q:	Okay.
1109		
1110	A:	I know they were at one time when one of his, um, civilian police officers hurt
1111		himself. Some of his guys were pullin' extra shifts. But it was never to the
1112		level of
1113		
1114	Q:	Not chronic like this.
1115		
1116	A:	Yeah.
1117		
1118	Q:	Yeah.
1119		
1120	A:	It was never like, "Hey, we can't do this. We need help," or something. He
1121		was able to manage it.
1122		-
1123	Q:	Oh, one thing I noticed, too, in your report it said somewhere that it's not
1124		known what the cause of the manpower shortfalls is.
1125		-

1126 1127	A:	That may be
1127	Q:	Um
1120	Q٠	
1130	A:	the section I break it down.
1131		
1132	Q:	and I was just wondering, you know - that's a good point. And how could
1133		we find out what the cause is? I can't remember where I saw that. Well
1134		
1135	A:	Yeah.
1136		
1137	Q:	I don't know. I guess the question would be did you do anything to try to
1138		figure out why they don't have enough supervisors to begin with or
1139		
1140	A:	Eh
1141		
1142	Q:	you just
1143		
1144	A:	he had, um - that was one of the things that (b) (6) had mentioned, uh, in
1145		our meeting - that they had, um - they used to have three supervisors per shift
1146		and they have three shifts a day, each shift being eight hours. They had, um,
1147		lieutenant - and I'm gonna get this wrong. I don't wanna - it's in this report -
1148		the breakdown.
1149		
1150	Q:	What they used to have?
1151		
1152	A:	But they had had a lieutenant, a sergeant, and then a corporal. Let's see. Yeah.
1153		Here it is. So you'd have a lieutenant who - who would be, like, the main
1154		supervisor on the shift that would stay back in the, uh - the security building.
1155		
1156	Q:	Mm-hm.
1157		
1158	A:	Run paperwork, communications, and that. The sergeant was the, uh, shift
1159		supervisor out on patrol
1160		
1161	Q:	Mm-hm.
1162		
1163	A:	um, that would respond to any issues that they had in the field. And then the
1164		corporal was - they called him a work-center leader or a work-shift leader.
1165		They had, um - the way he explained it to me was all the responsibilities,
1166		pretty much, of a supervisor without the - the disciplinary power.
1167		
1168	Q:	Oh.
1169		
1170	A:	So, I mean, he could make the calls in the field, um, adjust things. But, uh, he

1171		couldn't address disciplinary issues with the staff. It had - that had to be
1172		moved up
1173	0.	Ohan
1174	Q:	Okay.
1175	<b>A</b> .	an the shair. Dest many three had a superior. I don't human if it may have to super-
1176	A:	on the chain. But now they had gone to - I don't know if it was due to, um,
1177		just personnel transferring and leaving and that - they were down to, um,
1178		basically, a lieutenant and a sergeant on every shift except for, um, the mid
1179		shift, I think it was. They were using the senior lieutenant, which they called a
1180		captain, and then they had a first class on the end of the shift.
1181	0.	Mar has Cohosically they want down in their meaning
1182	Q:	Mm-hm. So basically they went down in their manning.
1183	<b>A</b> .	
1184	A:	Yeah. And that's why
1185	0.	Dut why that have an ed you dan't he are
1186	Q:	But why that happened you don't know.
1187 1188	۸.	No
1189	A:	No.
	0.	Ohov
1190 1191	Q:	Okay.
1191	A:	And that would be - I mean, security could tell you why.
1192	А.	And that would be - I mean, security could ten you why.
1194	Q:	They might know that. Yeah.
1195	×٠	They might know that. Tean.
1196	A:	But I mean, that seemed to be the - the uniform issue is just a lack of manning.
1197		Duct moun, that beemed to be the "the annother issue is just a fact of manning.
1198	Q:	Do you know if they wrote any new SOPs as a result of this? I know there was
1199		some recommendation for that.
1200		
1201	A:	No. And when I said I haven't, like
1202		
1203	Q:	Yeah. Okay.
1204	-	
1205	A:	followed up on this
1206		
1207	Q:	All right. Um, so yeah. I guess, uh, you already said it in this report, but I was
1208		gonna just ask you to kind of explain to me, like, what do you see as the, um,
1209		potential safety hazards associated with the high levels of overtime? In your
1210		words, you know, just
1211		
1212	A:	The hazards of the overtime? The
1213		
1214	Q:	As a subject matter expert, you know?
1215		

1216 1217 1218	A:	Probably it's the long hours of no sleep. Um, if you're pulling a 16-hour shift, you know, and, eh, it just opens the door for mishaps to occur. You know, whether it's with a firearm or you make a mistake on your paperwork, um, if
1219		it makes the, uh - the person tired - if they have any other health issues it can
1220		be exacerbated by a lack of sleep. Uh, additional stress which, I mean, it can
1221		wreak havoc on the body and, um, affect your job, your personal life. And I
1222		think that's all. I mean, we kinda
1223		
1224	Q:	Yeah.
1225		
1226	A:	touched based on that in there. But, I mean, those are the big ones that jump
1227		out on us.
1228		
1229	Q:	Yeah. I mean, the one that jumps out big to me is the - the fact that there's
1230		firearms involved and - and traffic vio- situations and stuff where
1231		
1232	A:	Mm-hm.
1233		
1234	Q:	you know, it could be a potentially
1235		
1236	A:	(Unintelligible). Mm-hm.
1237		
1238	Q:	serious situation if somebody makes a mistake because they're tired with
1239		somethin' like that. You know?
1240		
1241	A:	And - and most - I mean, they're all dangerous in some ways you perform it.
1242		The most dangerous that jumps out is the firearms. Um, the biggest thing, you
1243		know, arming and de-arming at the beginning and, uh, end of shift. But also,
1244		you know, if they're investigatin' a - a traffic accident and they're stressed,
1245		lack of sleep, they're s- you know, they could miss something.
1246		
1247	Q:	And I know there was something about a specific requirement not to permit
1248		people to drive so many hours - a government vehicle - without a break or
1249		
1250	A:	It's documented in the, um - the traffic safety
1251		
1252	Q:	Oh, in that local instruction that you brought me too, right?
1253		
1254	A:	Yeah. That's the, uh
1255		
1256	Q:	This one.
1257		
1258	A:	that's the (NABSTAY).
1259		
1260	Q:	Mm-hm.

1/1/2/1		
1261		
1262	A:	Um, there's another one. There's the - the big Navy - the (OPS NAB 5100
1263		Points) (unintelligible) ((b))).
1264		
1265	Q:	Mm-hm - mm-hm.
1265	×٠	
	<b>A</b> .	The lines it's mentioned in them as well. The second Themese it's mentioned in
1267	A:	I believe it's mentioned in there as well. Um, yeah. I know it's mentioned in
1268		(D) - I think it's mentioned in (OPS) as well.
1269		
1270	Q:	And, yeah, 'cause you're more likely to have a traffic accident too, I'm sure, if
1271		you're
1272		•
1273	A:	Correct.
1273	11.	
	0.	fationad
1275	Q:	fatigued.
1276		
1277	A:	And that was one of the recommendations I made. If you have two super- two
1278		supervisor positions, I mean, they're both gonna be there the same amount of
1279		time. Don't just leave one in a shed and one out on the road. Rotate it every
1280		couple of hours.
1281		
1282	Q:	Mm-hm - mm-hm. Mm, okay. All right. Well
1282	Q.	wini-init - initi-initi. wini, okay. Ali figitt. weti
	<b>A</b> .	Mar
1284	A:	Mm.
1285		
1286	Q:	that's really - I just wanted to talk to you since I - I saw your report. And I
1287		wanted to hear, you know, a little more clarification and

1306		
1307	A:	Yeah. Um, and it's - I think I kinda reiterated it from the Designation Letter.
1308		Um, it was directed by reference A, which is the Designation Letter, "This
1309		committee was, uh, tasked to develop a formal process for assigning OT."
1310		
1311	Q:	Mm-hm.
1312	χ.	
1312	A:	Um, and that was through doing an ORM and then taking that and developing,
1314	71.	uh, a formal SOP to assign overtime to those personnel.
1314		un, a formal 501 to assign overtime to mose personner.
1315	0.	Mm-hm.
	Q:	IVIIII-11111.
1317	<b>A</b> .	
1318	A:	That second part was outside of - I felt was outside of my job scope. So I did -
1319		I - in my mind, the next best thing is, you know, we ORM'd it to death, um,
1320		and explained all the information as best we could and, um, made
1321		recommendations on how to manage, um, overtime. And that's
1322		
1323	((Crosstalk))	
1324		
1325	Q:	From a safety perspective.
1326		
1327	A:	From a safety
1328		
1329	Q:	Yeah.
1330		
1331	A:	perspective. But, I mean, we're not - we're not security specialists. I don't -
1332		we only had a - a short period of time to - to get into this.
1333		
1334	Q:	Yeah - yeah.
1335		
1336	A:	And, um - and we, you know - it was, uh, the best we could come up with
1337		within that short period of time.
1338		
1339	Q:	Mm-hm.
1340	Q.	
1340	A:	The only thing we did not do is give a formal process for overtime. And I told
1342	71.	the XO that was outside of us - you know, that that was somethin' security
1342		would have to do. They know their limitations of what they can and can't do.
1343		would have to do. They know their initiations of what they can and can't do.
1344	$\mathbf{O}$	Mm hm
	Q:	Mm-hm.
1346	<b>A</b> .	Dest there are taken as a more additional and then from the time laws at a
1347	A:	But they can take our recommendations and then from that implement a
1348		formal process.
1349	0	
1350	Q:	Now did you ever talk about the report with the CO?

1351		
1352	A:	No.
1353		
1354	Q:	No. And did
1355		
1356	A:	It was just the XO.
1357		
1358	Q:	get any feedback from the CO about
1359	Q٠	get any recuback from the CO about
1360	A:	No. It never
1360	А.	No. It nevel
	0.	Nathing
1362	Q:	Nothing.
1363	•	
1364	A:	never mentioned it, never said anything about it. It was all run through the
1365		XO.
1366	_	
1367	Q:	Okay. So you really don't know if the CO was satisfied with that or not or
1368		
1369	A:	No, I don't.
1370		
1371	Q:	You just only heard from the XO.
1372		
1373	A:	Yeah.
1374		
1375	Q:	Yeah.
1376		
1377	A:	And then, like I said, I mean, she directed us to give it to (b) (6)
1378		and have him develop a formal process. And
1379		
1380	Q:	And whether he did that or not, too
1381		
1382	A:	whether
1383		
1384	Q:	you don't know.
1385	×۰	
1386	A:	I told him and $\binom{(b)}{(6)}$ and they said, "Got it." And that was the last I
1387	л.	heard of it. So I assumed, you know, they, you know, did - done it for her and
1387		given it to her and she was happy with it.
		given it to her and she was happy with it.
1389	0.	M'Kay. So basically b- (b) (6) and (b) (6) were gonna take your Report
1390	Q:	
1391		for Action and do something further with it.
1392		
1393	A:	Correct.
1394	0	
1395	Q:	Yeah. Okay. All right. I think that's pretty much all I had. Do you have any

1396		questions for me or
1397 1398	A:	(Unintelligible). You just need a, um - you wanted a copy of the Designation
1399		Letter and then just verify who the second point of contact was
1400		5 5 1
1401	Q:	Yeah.
1402		
1403	A:	from HR?
1404	-	
1405	Q:	Yeah. And any
1406		
1407	((Crosstalk))	
1408	0.	a maile you have if you do hannon to have any shout high a name on I
1409 1410	Q:	e-mails you have - if you do happen to have any - about hiring people or, I don't know, anything
1410		doll t know, anything
1412	A:	Uh
1413	71.	
1414	Q:	related to this.
1415	χ.	
1416	A:	it was all - it was in person. It was in his office.
1417		1
1418	Q:	Yeah.
1419		
1420	A:	Then we had that nice, long talk.
1421		
1422	Q:	Yeah. Okay. Well anything that you can see - you know
1423		
1424	A:	Okay.
1425	0	
1426	Q:	communication between the XO and you about this or whatever, if there's
1427		anything
1428 1429	۸.	Vach I have I think I have a counter
1429	A:	Yeah. I have - I think I have a couple
1430	Q:	would be helpful.
1432	Q٠	
1433	A:	of e-mails I saved
1434		
1435	Q:	Okay.
1436	-	•
1437	A:	for (unintelligible).
1438		
1439	Q:	All right. Wonderful. I appreciate your time.
1440		

1441	A:	Yes, ma'am. Thank you.
1442		
1443	Q:	And thanks for
1444		
1445	A:	Nice meetin' you.
1446		
1447	Q:	your flexibility on the timing and everything. Okay. And feel free to give me
1448		a call if you have any questions or you think of anything else.
1449		
1450	A:	Okay. Excellent.
1451		
1452	Q:	Okay.
1453		
1454	A:	I will do.
1455		
1456	Q:	All right. Have a good day.
1457		
1458	A:	You, too. Would you like this open or closed?
1459		
1460	Q:	Open's fine.
1461
