Notice:

Marine Corps Installations
The current Marine Corps training contract ends on 21 September 2014. A new contract is not expected to be in place until late November 2014. During this gap, no contractor-provided Motorcycle Safety training courses will be offered.

Installation and volunteer Rider Coaches will be available during the training gap, but the frequency of courses will be reduced (contact your local Installation Safety Office for more information). During this gap, those active duty members who own a motorcycle will receive priority placement in any available training course. Additional contractor-provided courses may be offered at the start of the new contract to reduce any accrued waiting list as a result of this gap.

Navy Training Registration

a. ESAMS allows external viewing of and enrollment in:

- Traffic Safety Classes (Motorcycle, AAA Driver and EVOC)
- Fire Public Education (Fire Warden)
- Certain Safety Classes (CPR, First Aid)
- BI2F Bystander Intervention to the Fleet Training

b. Regional/host commanders provide COMNAVSAFECEN-approved traffic safety training at no cost to all military and DON civilian personnel seeking on-base driving privileges.

c. All other civilian personnel seeking on-base driving privileges including retired members of DoD and dependents may participate in motorcycle training at no charge by the Navy on a space available basis or obtain training elsewhere at the individual's own expense.

Training Registration

ESAMS Updates

Release Date: 06/19/2014

The Inspections (IDATS) module has been updated to the new ESAMS look and incorporate CCB Items. The new look should be more efficient and user friendly. New features:

- Incorporated a Master Inspection and Master Deficiency Report.
- Provided ability to mass replace personnel on inspections and deficiencies (Access required).
- The inspection and deficiency detail pages now read top to bottom that incorporates the standard ESAMS tabbed look.
- The new Pre-Inspection tab provides the inspector with specific personnel data, and details on previous inspections.
- Inspectors Can create deficiency template from a common deficiency and save for later use.
- "Actions for ..." quick links have replaced the old hotlist.
- On ESAMS Main "My Actions" has replaced "Inspections" and "Abatement"
