Information/Assistance

For additional assistance or information, please contact ECATTS Support via email at support@ecatts.com or call 866-730-4253.

NEW USERS

Register Here

If you are registering to use this system for the first time, contact your supervisor for an initial registration password, enter the password in the box below, and click Create button to begin the registration process

You will then be directed through several steps in a registration process. Enter your personal information into the required fields to create your own account.

Once you have completed the registration process, log in with your new Login ID and password in order to access the system and begin your training.

NOTE: If your email address ends with ".mil", [CLICK HERE](#) and our server will send you the registration password immediately.

Registration Password:

If you need help registering you can email [ECATTS Support](#) or call 866-730-4253 for assistance. You will receive a response within 24 hours.

About ECATTS

Welcome to ICLD's Environmental Compliance Assessment, Training, and Tracking System (ECATTS). This system is designed to provide an understanding and awareness of the environmental requirements established by the United States Environmental Protection Agency (EPA), the United States Department of Defense (DoD), and the state or country in which your facility is located.

Maintaining environmental compliance is everyone's responsibility. While working on Navy bases, you are required to know and understand how EPA, DoD and your state's or host country's environmental compliance laws impact your work activities. Environmental compliance means doing your job in such a manner so that you prevent harm to the environment, yourself, and your coworkers.

This system will help you develop the skills you need to maintain an environmentally friendly work environment and to complete your work tasks in accordance with the various installations' environmental policy.
