Scrap Tire Turn-In Procedure

- Contact Margie.Steward@dla.mil or JOSE.MARTINEZ@DLA.MIL at DLA Disposition Services (DLADS) for scrap tire turn-in procedures. Guidance material DOD 4160.21-M “TIRES DISCARDED/SCRAP”.
- Turn-in activities may dispose of scrap tires at the DLADS, However, the DLADS ability to receive the tires may be limited if the DRMO is in a state that requires permits for tire collection above a specific amount, e.g., 500, 1000, unless the host installation has a permit. If the DRMO cannot receive the scrap tires, the turn-in activity will retain physical custody during the RTDS process.
- DLADS will not process tires typically reclaimed from customers by the military exchanges (e.g. NEX) as a part of their normal business.
