

## **IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**

### **Availability of Monitoring Data for Unregulated Contaminants for NAS Whiting Field Water System**

Our water system has sampled for the unregulated contaminants PFOA/PFOS. Unregulated contaminants are those that don't yet have a drinking water standard set by U.S. Environmental Protection Agency (EPA). The purpose of monitoring for these contaminants is to comply with a Department of Defense policy to sample for PFOA/PFOS at all military drinking water systems that treat their water. As our customers, you have a right to know that these data are available. If you are interested in examining the results, please contact NAS Whiting Field Public Affairs Officer at phone number 850-623-7341 or email [whtg\\_naswf\\_pao.fct@navy.mil](mailto:whtg_naswf_pao.fct@navy.mil). You can also find the results on the base website at: [https://www.cnic.navy.mil/regions/cnrse/installations/nas\\_whiting\\_field/om/environmental\\_support/PFAStesting.html](https://www.cnic.navy.mil/regions/cnrse/installations/nas_whiting_field/om/environmental_support/PFAStesting.html).

This notice is being sent to you by the NAS Whiting Field Public Works Department.

State Water System ID#: FL1570489.

Date distributed: January 8, 2021.
