Child and Youth Programs

Naval Support Activity Rota, Spain
PSC 819 Box 8
FPO, AE 09645

Permission for Consultation

Dear Parent,

We recognize that children and youth develop at their own individual rate and with distinct strengths and interest. Child and Youth Programs provide stimulating, safe environments to encourage optimum development. There are times when we may request assistance from other base agencies and partners, which have specific expertise in various areas of development. The input that we receive from these agencies is valuable in staff training, also with assessing and supporting your child's/youth participation in our programs.

NS Rota is fortunate to have agencies and partners that network with us in providing resources and information. Several of these agencies include:

- Naval Hospital
- Department of Defense Schools (DoDDS)
- Family Service Center (FFSC)
- Educational and Developmental Intervention Services (EDIS)
- Military Family Life Consultants (MFLC)
- Kids Included Together (KIT)

Some of the areas of development we may discuss with these agencies include:

- Communication
- Problem Solving Skills
- Use of Large and Small Muscles
- Ability to Focus on Activities
- Self Help Skills
- Physical Growth
- Peer Interaction and Social Techniques
- Support of Positive Behavior

This comprehensive approach will enable us to maximize our efforts to support your child/youth's needs. Any suggested activities, strategies towards positive behavior, and ideas will be shared with you so together we ensure your child/youth's participation and experience in CYP Programs is successful.

Please indicate your preference below:

- Yes, the Child and Youth Program and the above listed agencies may consult and/or observe on my child's behalf.
- No, the Child and Youth Program may not consult with other agencies on my child's behalf.

More information is available by contacting your Child and Youth Program Director at 727-2839
