

## DEPARTMENT OF THE NAVY

COMMANDER  
NAVY REGION HAWAII  
850 TICONDEROGA ST STE 110  
JBPHH HI 96860-5101

13 Mar 14

### ENVIRONMENTAL POLICY STATEMENT

The mission of the Navy Region Hawaii is to provide, maintain, and modernize shore infrastructure, service support and training to enable Air Force and Naval Fleet Operations in the Hawaii area of responsibility. Protection of the environment is integral to accomplishing our mission as National defense and environmental protection are compatible goals. Navy Region Hawaii is committed to:

- Complying with environmental laws, regulations, and other applicable requirements. Achieve significant improvements in the compliance stature and procedures in hazardous waste management.
- Implementing sustainable practices for energy efficiency and reduction in water consumption.
- Utilizing Environmental Management System (EMS) as a tool to establish and review environmental objectives and targets.
- Preventing or minimize pollution at its source to reduce the generation of waste.
- Providing continual improvement of our environmental performance and community relations.

It is the responsibility of all personnel, tenants, and contractors to help protect Hawaii's environment. You have my commitment and support to reduce our impact to the environment and demonstrate environmental stewardship of our natural resources. This policy is an important responsibility that shall be communicated to all personnel, customers, and stakeholders.

A handwritten signature in black ink, appearing to read "R. L. Williams", is positioned above the printed name.
