PRIVACY ACT STATEMENT 個人情報保護について

AUTHORITY: Executive Order 10450, 9397; and Japan Law Concerning Protection of Personal Information (Law No. 57 of 2003).

法令: 米国内閣令 10450, 9397 ; 及び 日本法・個人情報の保護に関する法律（平成15年法律第五十七号）

PRINCIPAL PURPOSES: To record Personal Information for the purposes of executing the business operations of the U.S. Forces, Japan and protection of human life, safety and property, NOTE: Records will be securely maintained in either an electronic or paper form.

主目的: 人間の生命、安全、財産の保護と在日米軍の業務の遂行を目的として、個人情報を記録する為。

注記: 記録は電子書式、もしくは書面にて厳重に保管されます。

ROUTINE USES: To maintain Personal Data accurately with the most up-to-date content to the extent necessary to achieve the stated Principal Purposes.

利用目的: 主目的の達成に必要な、最新で正確な個人情報を維持する為。

DISCLOSURE : Disclosure of this information is voluntary; however, failure to provide the requested information may impede, delay or prevent further processing of administrative actions.

情報開示: 個人情報の開示は任意ですが、要求された情報を提供しなかった場合、その後の手続きの妨げ、遅れ、あるいは中断となる事があります。

TASK LIST:

- a. Manages Japan Environmental Governing Standards (JEKS) Asbestos, LBP and Radon Public Works programs. Serves as technical authority, advisor and consultant to Public Works Department (PWD) staff and other Navy and Host Nation Agencies concerning Asbestos, LBP and Radon. Reviews and provides expert advice and technical assistance concerning the implementation of DOD and Navy Asbestos, LBP and Radon policies to the installation, management officials, projects engineers, and technical personnel. Establishes and/or evaluates standards and policies relative to asbestos, lead-based paint and radon for the installation. Reviews standard operating procedures for environmental concerns, conducts indoor air quality monitoring, sampling for Asbestos/LBP/ Radon hazards, participates in inspections, and assigns environmental risk assessment codes.
- b. Reviews scope of maintenance and repair work, plans job requirements for all trades involved, compares facilities work requests to existing Asbestos, LBP and Radon inventories and surveys to determine if Asbestos Containing Material (ACM) or LBP will be disturbed, along with the possible release of radon gas by in-house and contracted work during project execution. Reviews and assists in development of all contracted and in-house projects and performs design reviews for all PWD developed projects involving Asbestos and LBP containing material disturbance and potential releases of radon gases. Plans and oversees surveys, inspections and sampling activities to identify potential hazards then provides recommendations for remediation of Asbestos, LBP and Radon hazards. Completes all administrative requirements in support of in-house work. Inputs facility data into corporate applications, including Maximo, in support of project development. Translates between English and Japanese language codes and standards.
- c. Develops and maintains the Asbestos Management Plan, the LBP Management plan and the Radon Management Plan. Edits and updates the plans for maintaining the current inventory of all building locations where Asbestos Containing Material (ACM), LBP material and Radon is located, so that appropriate surveillance can be conducted. Prepares technical reports evaluating Asbestos, LBP and Radon abatement/remediation operations, controls, personal protection, etc., and recommends action for control or elimination of hazards.
- d. Collects pertinent information through record reviews, interviews, and onsite inspections. Create/maintain a documentation system of records and test results related to ACM, LBP and Radon. Reviews proposed surveys, inspections, and sampling activities/plans and evaluates analytical results to ensure the appropriate engineering controls are in place during project execution to mitigate exposure and ensure the safe handling of ACM/LBP materials and Radon gases. Serves as principal advisor on Asbestos, LBP and Radon issues to Facilities Management Division Director.
- e. Reviews processes for operational modifications, as well as new concepts, designs or construction projects to ensure potential ACM, LBP and Radon hazards are appropriately addressed. Resolves complex and sensitive issues including economic limitations for compliance actions. Reviews projects and background data for compliance and obtains/coordinates the collection of supplementary information.
- f. Employee must be able to obtain the following certifications within the first 18 months of employment and maintain these certifications as a condition of employment:
 - Asbestos Inspector
 - Asbestos Management Planner
 - Asbestos Contractor/Supervisor
 - Asbestos Project Designer
 - Lead Abatement Supervisor
 - Japanese “Asbestos Work Supervisor” (Ishiwata Sagyo Syunin-sya)

Performs other related or incidental duties as assigned.
