TASK LIST ENGINEERING TECHNICIAN (GENERAL) MLC 1-6, #384

This position is located in the Public Works Department Yokosuka, Facility Engineering and Acquisition Division (FEAD). The FEAD provides contractual procurement and administrative services for U.S. Navy, Marine Corps, and other government appropriated and non-appropriated fund activities. These contracts involve construction, repair, maintenance, engineering, and design services encompassing all engineering disciplines, including safety and environmental requirements. The incumbent coordinates with Engineering Technicians and Subject Matter Experts to arrive at mutually satisfactory approaches and solutions to the development of Facility Support Contracts (FSC). The incumbent independently selects, interprets and applies standard guidelines, while modifying, adapting, and making compromises to meet the requirements of each assigned projects. Additionally, the incumbent exercises self-judgment in the design of new specifications. This position reports directly to the FSC Branch Head.

1. DEVELOP FSC CONTRACT PACKAGES

- a. Prepares performance-based Facility Support Contracts (FSC) specifications, technical plans and drawings conforming to U.S. Codes, Japanese Laws, and NAVFAC directives. Prepares modification packages required to support operation, maintenance and repair of shore facilities. Determines performance standards and qualification requirements (i.e. licenses and permits) for each project to conform to Japanese laws and regulations.
- b. Develops detailed Independent Government Estimates for FSC projects. Thoroughly analyzes project scope to determine the manpower, materials, and equipment necessary to complete the project. Information is critical for the evaluation of contractor bids. Reviews and analyzes contractor's proposed prices and provides the Contracting Officer an evaluation for acceptability.
- c. Obtains, selects, compiles, translates, and presents technical and scientific information, in both English and Japanese, regarding developments in engineering techniques pertaining to projects, and plans being developed by the FEAD.
- d. Prepares performance evaluation plans in accordance with NAVFAC policy.

2. SUPPORTS FSC CONTRACT ADMINISTRATION/OTHER

- a. Reviews contractor's submittals for proposed materials to be used and shop drawings and provides the Contracting Officer with recommendations and comments for approval/disapproval.

- b. Serves as member of Technical Evaluation Boards for FSCs that establishes technical selection criteria. Upon receipt of contractor proposals, evaluates the proposal against the established criteria to determine which contractor is best qualified to perform the desired work.
- c. Reviews and translates in English and Japanese such written materials as codes, standards, regulations criteria, reports, etc., requires as reference documents to support the developments, design and preparation of specifications and drawing.
- d. Assists in maintaining a library of technical standards, procedures, and reference documents for use in specification writing and as engineering design references.
- e. Performs other duties as assigned by higher authority.

“Language Requirement”

Japanese Language at native level is required to translate technical/scientific information, laws, codes, instructions, etc. from English to Japanese and vice versa in order to prepare specifications, technical plans and drawings.
