EPA Emerging Contaminants Fact Sheet:

<http://1usa.gov/1QbweBl>

## CURRENT AND FUTURE ACTIONS

### CURRENT ACTIONS

- ▶ Alternate drinking water source (bottled water) provided to impacted residences until the long-term solution, connection to public water supply, is implemented
- ▶ Website providing information on the investigation

### FUTURE ACTIONS

- ▶ Work with the U.S. EPA and NJ DEP agencies to investigate source of PFC contamination.
- ▶ Conduct additional onbase groundwater and potable water sampling.
- ▶ Install additional on-base shallow and deep groundwater monitoring wells.
- ▶ Implement long term solutions to affected residences.
- ▶ Continue to monitor and respond to changes in U.S. EPA and NJ DEP issued regulatory in health-based levels for PFCs.
