

## AIR MOBILITY COMMAND (AMC) PET TRAVEL INFORMATION

NAVPTO can confirm pets on certain AMC channels.

AMC considers pets as cats and dogs ONLY.

AMC will only allow two (2) pets per family.

Pets can only be confirmed with members traveling under PCS orders.

Pet travel must be requested on the Passenger Reservation Request (PRR), to include type of pet (cat or dog), weight of pet, and size and weight of travel cage.

Pet and cage together cannot weigh over 150 pounds on an AMC flight.

The traveler must pay a fee to AMC for pet travel payable the day of the flight prior to board the aircraft.

Passengers must provide their own shipping containers that have been approved by International Air Transport. Soft sided or collapsible containers will not be accepted.

If the port call authorizes commercial air vice AMC, the traveler is responsible for making pet arrangements directly with the commercial airline.

The traveler is responsible for complying with required documentation, immunization, and border clearance requirements of the host country.
