

List of Authorized, Allowed, and Prohibited Non-stormwater Discharges on Naval Construction Battalion Center (NCBC) Gulfport

Naval Construction Battalion Center (NCBC) Gulfport installation operates under the Mississippi Department of Environmental Quality (MDEQ) Small Municipal Separate Storm Sewer (MS4) General Permit issued 18 Mar 2016. ACT2 (MS4) Permit Applicability and Coverage permit [authorizes the following non-stormwater discharges on the installation](#) as long as they are not a substantial cause or contributor of pollutants entering the MS4 and do not cause or contribute to a violation of the Mississippi water quality standards (criteria) as set forth in 11 Mississippi Administrative Code Part 6, Chapter 2 and applicable state and federal laws, regulations and criteria:

Water line flushing
Landscape irrigation
Diverted stream flows
Rising ground waters
Uncontaminated ground water infiltration (infiltration is defined as water other than wastewater that enters a storm sewer system, including sewer service connections and foundation drains, from the ground through such means as defective pipes, pipe joints, connections, or manholes. Infiltration does not include, and is distinguished from, inflow.)
Uncontaminated pumped ground water
Discharges from potable water sources
Foundation drains
Air conditioning condensate and coil wash water with no additives
Irrigation water
Springs
Water from crawl space pumps
Lawn watering runoff
Footing drains
Water from individual residential car washing
Flows from riparian habitats and wetlands
Dechlorinated swimming pool discharges
Street wash water
Discharges or flows from firefighting activities
Fire hydrant flushing
External building wash downs which do not use detergents

List of Authorized, Allowed, and Prohibited Non-stormwater Discharges on Naval Construction Battalion Center (NCBC) Gulfport

<p>MDEQ Small (1 or <5 acres) and Large (5 or > acres) Construction General Permit <u>ALLOWABLE NON-STORM WATER DISCHARGES</u></p>
Discharges from fire-fighting activities
Fire hydrant flushing
Potable water sources including uncontaminated water line flushing
Water used to control dust
Water used to wash vehicles, wheel wash water and other wash water where detergents are not used
Routine external building wash down that does not use detergents
Pavement wash waters where spills or leaks of toxic or hazardous materials have not occurred (unless all spilled material has been removed) and where detergents are not used
Uncontaminated air conditioning or compressor condensate
Uncontaminated ground water or spring water
Foundation or footing drains where flows are not contaminated with process materials such as solvents
Uncontaminated excavation dewatering
Landscaping irrigation
<p>MDEQ MSA, Small (1 or <5 acres) and/or Large (5 or > acres) Construction General Permits <u>PROHIBITED NON-STORM WATER DISCHARGES</u></p>
Wastewater from washout of concrete (<i>i.e. trucks, mixers, tools, etc.</i>) (unless managed by an appropriate control)
Wastewater from washout and cleanout of stucco, paint, form release oils, curing compounds and other construction materials
Fuels, oils, or other pollutants used in vehicle and equipment operation and maintenance
Soaps or solvents used in vehicle and equipment washing
Wastewater from sanitary facilities, including portable toilets
