RED PLAN

In the event of an oil or hazardous substance spill discovered at the facility, the Red Plan serves as the jump start for initiating response actions at the earliest possible time. All information contained in the Red Plan has been extracted from the Oil and Hazardous Substance Spill Contingency Plan (OHSSCP).

When a spill occurs or is discovered, the responsible person or discoverer will take immediate action. The user is expected to transition to the OHSSCP for more in-depth information as soon as possible.

The oil and hazardous substance spill response process flow chart summarizes the OHSSCP plan on the following page.

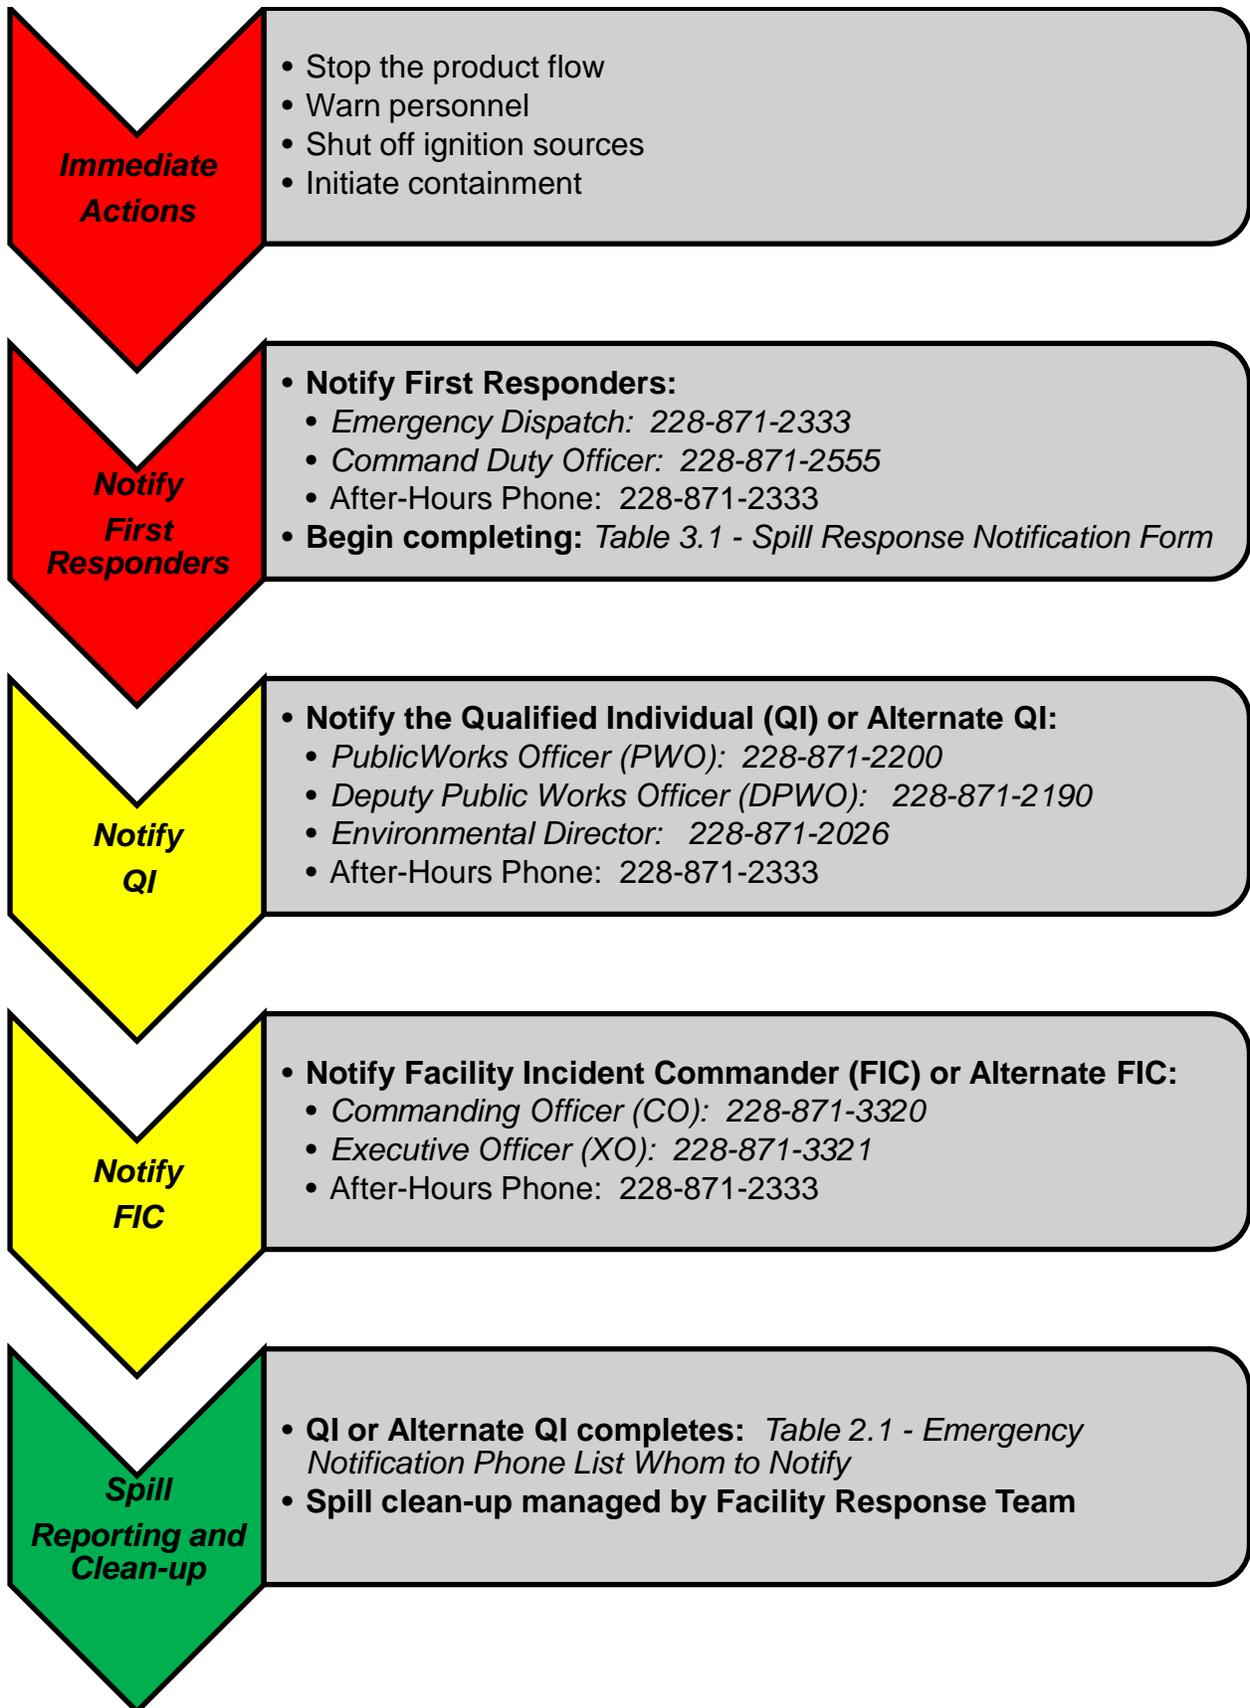

Table 2.1 - Emergency Notification Phone List Whom to Notify

Reporter's Name:			
Facility Name:	NCBC Gulfport		
Owner Name:	U.S. Navy		
Organization	Phone No.	Notification	
		Date	Time
National Response Center (NRC)	800-424-8802
