

What is it all about?

Opened in 2002 the Naval Air Station, Jacksonville Black Point Watchable Wildlife Area and Nature Trails are places to enjoy and learn about nature. We have several species of flora and fauna (plants and animals) on the Station.

Please visit our gazebo, butterfly garden and Interpretive Center overlooking the beautiful St. Johns River as well as out two miles of forested and wetland boardwalk trails. Learn about the history of the third largest naval station in the United States and the Indians who used to live here.

We all share a piece of the Earth, visit Black Point and learn about our environment.

We are available for educational field trips from schools in the surrounding counties.

We are also available to community service groups such as Girl Scouts and Boy Scouts.

BLACK POINT WATCHABLE WILDLIFE AREA

"The ultimate test of man's conscience may be his willingness to sacrifice something today for future generations whose words of thanks will not be heard."

- Gaylord Nelson, former governor of Wisconsin, founder of Earth Day
