## **Notice of Proposed Plans for Upgrade of RV Park at Naval Base Ventura County, Point Mugu**

This notice is to inform, as required by the Department of Defense Instruction 7700.18, Enclosure 3 Guidance, Section E3.1.4.8, that Naval Base Ventura County (NBVC), Point Mugu received Fiscal Year 2018 non-appropriated funding to support renovation of the existing Recreation Vehicle (RV) Park.

A segment of the mid-eastern shoreline of NBVC is designated as community support and housing, which consists of camping and beach recreational areas. The project area is directly behind the Navy Getaway's Beach Hotel. The proposed project includes an upgrade to Morale, Welfare and Recreation (MWR) RV spaces at Point Mugu in order to meet the Navy Getaways standard design. Construction will include removal and rebuilding of the existing park and some minor expansion of the RV Park's existing service area by adding an additional twenty-two (22) RV spaces. The new design will accommodate full utility service hook-ups: 20/30/50 amp electrical service (Eaton pedestals), Wi-Fi, water, sewer, cable, roadways and concrete RV Pads. The RV facility is for Federal government personnel and is not accessible to the general public.

NBVC supports more than 80 tenant commands with a wide range of missions and unique assets, making NBVC an integral and essential part of the defense of our nation. With an estimated base population of more than 19,000 personnel, NBVC contributes immensely to the region's economy. NBVC's tenant commands encompass a diverse set of specialties that support both fleet and fighter, including three warfare centers: Naval Air Warfare Center Weapons Division, Naval Surface Warfare Center Port Hueneme Division and Naval Facilities Engineering and Expeditionary Warfare Center. NBVC is also home to deployable units, including the Pacific Seabees and the West Coast E-2 Hawkeyes.
