From: Commanding Officer, Naval Air Station Lemoore

Subj: NAVAL AIR STATION (NAS) LEMOORE ENVIRONMENTAL POLICY

1. Purpose. To provide the highest level of mission support and quality of life services for all activities at NAS Lemoore and the surrounding area. Our goal is to actively promote mission readiness through environmental stewardship. Our current top five environmental concerns are:

a. Identifying and mitigating bird-aircraft strike hazards through prudent and effective environmental controls.

b. Building and retaining sustainable utilities in support of the installation community.

c. Ensuring the responsible use of energy and water, including conservation and improved efficiency.

d. Controlling hazardous material use, responding to hazardous substance spills, and illegal dumping of solid waste.

e. Preserving significant aspects of the natural and cultural environment while maintaining sustainable land management, through actions such as water and soil conservation.

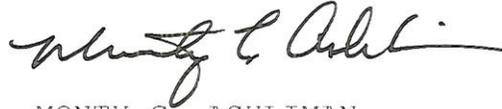

2. In recognition of environmental stewardship to our Sailors, customers, civilian personnel, neighbors, and others, we commit to the continual improvement on:

a. Implementing pollution prevention strategies to reduce the release of toxic chemicals and wastes in the environment where economically feasible.

b. Periodically reviewing, measuring, and evaluating for improvement of the NAS Lemoore environmental management system objectives and targets, as outlined in the above stated concerns.

Subj: NAVAL AIR STATION LEMOORE (NAS) ENVIRONMENTAL POLICY

c. Complying with applicable federal, state, and local environmental regulations, Department of Defense and Department of Navy policies, and additional environmental mandates.
