

## EMERGENCY MANAGEMENT OFFICE NSA BAHRAIN

### **SHELTER-IN-PLACE (VEHICLE)**

In the event of an emergency and you are off-base in your vehicle and receive notification via any of the mass warning and notification systems to **“SEEK COVER” OR “REPORT TO SHELTER”**, you should follow the below checklist to ensure your safety.

Check out the Off-Base Shelter-In-Place Checklist for at-home procedures.

**DO NOT** proceed to Base, DoDDS, or other military locations; you will be turned away in an increased Force Protection Level Condition. Children at DoDDS or other locations will be directed to shelter-in-place by personnel on station, much like a school fire drill.

#### Shelter-In-Place Checklist

- Stay in your car or truck.
- Close all windows, manual vents, tops, air conditioning and ventilation systems.
- If possible, drive away from visible gas or smoke clouds.
- Follow the orders of law enforcement or public safety personnel directing traffic.
- Make your way toward home if possible. BUT...
- Stay in your car or truck and wait for the all-clear signal before you leave your car or truck or open and windows or vents.
- Stay off your phone. F&ES personnel may be trying to contact you!
- Remain calm and wait for all-clear from F&ES personnel.
- Monitor the radio, including the base station 106.3
