

**Public Notice
NAVAL BASE POINT LOMA
SAN DIEGO, CALIFORNIA
Formation of Restoration Advisory Board
Membership Solicitation**

The Department of Defense recognizes the importance of stakeholder participation as part of its Installation Restoration (IR) Program. Therefore, Naval Base Point Loma (NBPL) is announcing the establishment of a Restoration Advisory Board (RAB). The RAB is intended to enhance public participation by involving the local community in the environmental restoration process.

The RAB is an advisory body designed to act as a focal point for the exchange of information, between NBPL and the local community, regarding restoration activities. The RAB is intended to bring together community members who reflect the diverse interests within the local community, enabling the early and continued two-way flow of information, concerns, values, and needs between the affected community and the installation.

RAB membership is a voluntary, non-compensated activity. RAB members will be asked to meet regularly to review and comment on technical documents and plans relating to the ongoing environmental studies and restoration activities at NBPL. Members will be expected to serve as a liaison with the community and be available to meet with community members and groups. Membership terms will be decided by the RAB. All RAB meetings will be open to the public. Technical support staff will be available to provide informational support and to assist RAB members with technical issues.

Community members interested in forming a RAB for NBPL are invited and encouraged to submit a membership application. Membership applications are available on line at: <https://www.cnrc.navy.mil/PointLoma/Programs/Environmental/index.htm>
Or, you may request an RAB membership application form from:

Ms. Allison Basche
Naval Facilities Engineering Command Southwest
2730 McKean Street, Building 291
San Diego, CA 92136
allison.basche@navy.mil

Please submit to your application to Ms. Basche by April 24, 2009.
