HOW TO GET YOUR NAICS CODES

(pronounced “Naics” as in “Snakes”)

**NORTH AMERICAN
INDUSTRY CLASSIFICATION
SYSTEM**

North American Industry Classification System (NAICS)

The North American Industry Classification System (NAICS) has replaced the U.S. Standard Industrial Classification (SIC) system. NAICS will reshape the way we view our changing economy.

NAICS was developed jointly by the U.S., Canada, and Mexico to provide new comparability in statistics about business activity across North America.

[NAICS 2007](#) includes revisions to [NAICS 2002](#) across several sectors. Significant revisions are in the Information Sector, particularly within the Telecommunications area.

The [North American Product Classification System](#) (NAPCS) is now available for products of [service industries](#) (sectors 51-81). (NAPCS will focus on manufacturing products at a later date; for existing census codes, see the [Numerical List](#).)

The printed [2007 NAICS Manual](#) is now available. See below.

The official **2007 US NAICS Manual** *North American Industry Classification System--United States, 2007* includes definitions for each industry, tables showing correspondence between 2007 NAICS and 2002 NAICS for codes that changed, and a comprehensive index--features also available on this web site. To order the 1400-page *2007 Manual*, in print, call NTIS at (800) 553-6847 or (703) 605-6000, or check the [NTIS web site](#). The *2002 Manual*, showing correspondence between 2002 NAICS and 1997 NAICS, and the *1997 Manual*, showing correspondence between 1997 NAICS and 1987 SIC, are also available.

The following 2007 NAICS files are currently available for downloading in spreadsheet form: [2007 NAICS codes--2- through 6-digit](#); [2007 NAICS codes--6-digit only](#); and correspondence table for those industries that changed: [2007 NAICS to 2002 NAICS](#) and [2002 NAICS to 2007 NAICS](#). A revised NAICS search incorporating the 2007 NAICS codes will be available in the near future.

Also available at this site are lists of [2002 NAICS codes](#) (with links to definitions), [1997 NAICS codes](#), tables showing [correspondence between NAICS 97 and SIC](#), tables showing [correspondence between NAICS 97 and NAICS 02](#), and other files for [downloading](#).

A summary of [NAICS supporting documents](#) cites Federal Register Notices, issues papers, and other reports about NAICS.

NAICS was developed in cooperation with the [US Economic Classification Policy Committee](#), [Statistics Canada](#), and Mexico's [Instituto Nacional de Estadística, Geografía e Informática](#).

Last revised: March 28 2008

U.S. Census Bureau

North American Industry Classification System -- 2007

NAICS 2007 is exactly the same as NAICS 2002 for thirteen of the twenty sectors. There was restructuring within part of the information sector. Industry changes affect the boundaries of three sectors.

A [Federal Register notice](#) (May 16, 2006) documents the final adoption of the revisions.

The printed NAICS 2007 manual is available from [NTIS](#).

Index

[Public Relations](#)

[2007 NAICS Search](#)

2007 NAICS United States Structure

	Titles with links to definitions	Downloadable
Code list, full hierarchy, 2- through 6- digits	html	xls (247kb)
Code list, 6-digit codes only	html	xls (128kb)

Correspondence Tables:

Table 1 2007 NAICS-US Matched to 2002 NAICS-US [xls](#) (1.3mb)

Table 2 2002 NAICS-US Matched to 2007 NAICS-US [xls](#) (386kb)

Note 1: Tables 1 and 2 include only those industries with 2002-2007 changes.

Commercial and Government Entity (CAGE) [Search CAGE CODES](#)

The Defense Logistics Information Service (DLIS) has sole responsibility for assigning and maintaining the CAGE Code Master File.

The CAGE Code is a five position code that identifies contractors doing business with the Federal Government, NATO member nations, and other foreign governments. The CAGE Code is used to support a variety of mechanized systems throughout the government and provides for a standardized method of identifying a given facility at a specific location. The code may be used for a Facility Clearance, a Pre-award survey, automated Bidders Lists, identification of Debarred Bidders, fast pay processes, etc.

► Parts 204, 212, and 252 of the Defense Federal Acquisition Regulation Supplement (DFARS) have been amended to require contractor registration in the DoD Central Contractor Registration (CCR) database prior to the award of any contract, basic agreement, blanket ordering agreement or blanket purchasing agreement unless the award results from a solicitation issued on or before May 31, 1998. Having a CAGE Code alone is no longer sufficient to qualify a contractor to do business with DoD.

All CCR registrants are validated through the CAGE system. If you have a CAGE Code, it will be identified and applied to your Trading Partner Profile (TPP). If you do not have a CAGE Code, and are a U.S.* company, one will be assigned to you.

You can register in CCR at <https://www.bpn.gov/ccr> or call for assistance at 1-888-227-2423.

Companies outside the U.S. can obtain CAGE codes by going to http://www.dlis.dla.mil/Forms/Form_AC135.asp

► Check the new [CAGE Code Server](#) to determine if a CAGE Code is already assigned to a contractor. This lookup service is available for everyone.

For Private Industry

► We will accept direct requests from private industry for maintenance against an existing CAGE Code. Please send your new information by e-mail to cagemail@dla.mil along with your CAGE Code.

► Maintenance actions will not be acknowledged to the requesting contractor as they may use the [CAGE Code Server](#) to confirm the action.

NOTE: Name changes, mergers, acquisitions, and/or product line changes must be sent through regular mail with appropriate documentation corroborating the change.

Comments and suggestions regarding the CAGE Code Master File, its contents and display are welcome. Please direct your comments, both positive or negative, to cagemail@dla.mil, or DLIS Contact Center Office, DLIS at 269-961-7766.

Notice Type:
Presolicitation

Synopsis:

Added: Apr 15, 2008 11:18 am Modified: Apr 25, 2008 1:15 pm [Track Changes](#)

THE PURPOSE OF THIS AMENDMENT TO THE RFI IS TO EXTEND THE RESPONSE DATE TO APR. 30, 2008.

THIS IS A REQUEST FOR INFORMATION (RFI). THIS IS *NOT* A REQUEST FOR PROPOSAL, QUOTATION, OR INVITATION TO BID NOTICE, but is provided as information to the marketplace and is an invitation for an expression of interest and demonstration of capability to perform the anticipated work. The Government will not pay for the provision of any information nor will it compensate any respondents for the development of such information. While a future Request For Proposal is anticipated, it is not guaranteed. The U.S. Coast Guard (USCG) is seeking small and large business sources that are capable of providing Transportation Worker Identification Credential (TWIC) Biometric Portable readers. The USCG is conducting a commercial best practices market survey of what products, training, help desk support and general industry practices exist in the commercial market to fulfill USCG unique TWIC Reader requirements. Interested entities are being requested to respond if they can provide requirements set-forth in the following attachments: Attachment (1), USCG TWIC Reader Requirements, list specifications for the reader and additional specifications unique to USCG TWIC requirement. All sources are requested to address each specification listed and identify whether or not they can currently provide each of the specification requirements listed in this document. Sources should also include additional information requested in the attached sheet. Please provide your answers in all attachments. Sources are requested to include any marketing material or additional information at this time. Attachment (2), U.S. Department of Homeland (DHS) TWIC Reader Hardware and Card Application Specification, dated 11 Sept. 2007, specifies the behavior at the card interface of the TWIC card application as well as the requirements for the TWIC smart card readers, both fixed and portable to be used with the Transportation Worker Identification Credential (TWIC). This sources sought synopsis focuses on only the portable requirements for the TWIC smart card readers.

The Small Business Administration (SBA) uses the North American Industry Classification System (NAICS) Codes to establish size standards on an industry-by-industry basis. The anticipated NAICS code for this requirement is 334119 – Other Computer Peripheral Equipment Manufacturing. Interested sources are encouraged to provide a determination of the best NAICS code applicable to this type of requirement. Interested small business concerns are requested to submit (1) an expression of interest and (2) a statement of capabilities, no later than 2:00 p.m. Eastern Standard Time, April 28, 2008. The expression of interest should state whether the concern is a Small Business, and identify if Small Business Disadvantaged Business, HUB-Zone Business, Women Owned Business, 8(a)

SeaPort-e:Rolling Admissions

Below please find information on the latest SeaPort-e Rolling Admissions process:

The Navy Virtual SYSCOM may periodically decide to expand the existing SeaPort Enhanced Multiple Award Contracts (MACs). This expansion would take place via the Rolling Admissions clause of the MAC contracts. In conjunction with Rolling Admissions, current MAC holders would have the opportunity to expand into additional zones. While NSWC Dahlgren serves as the Contracting Officer responsible for Rolling Admissions and MAC administration, ordering offices in the various Virtual SYSCOM activities will be responsible for the competition of their own requirements at the task order level.

This web page will be the home of all Official SeaPort Enhanced Rolling Admissions information, including the Solicitation, industry briefs, and other notices to industry. Please check this website frequently for the latest information.

Current Rolling Admissions Status: **AWARDS ISSUED 29 MAY 2008 -- OFFER PERIOD IS NOW CLOSED**

Please check this site for updates.

The following information is available from the most recent SeaPort-e Rolling Admissions:

- [Click here to access our archive of reference materials concerning the previous \(Spring, 2008\) Rolling Admissions process](#)

SeaPort-e:Rolling Admissions

Below please find an archive of the 2007 SeaPort-e Rolling Admissions for your historical reference.

Overview: NAVSEA and the Navy Virtual SYSCOM decided to expand the existing SeaPort Enhanced Multiple Award Contracts (MACs) to include SPAWAR, NAVSUP, and NAVAIR, as additional ordering offices. This expansion took place via the Rolling Admissions clause of the MAC contracts. In conjunction with Rolling Admissions, current MAC holders were given the opportunity to expand into additional zones.

The following information was made available for the **Spring 2008** SeaPort-e Rolling Admissions process (awarded 29 May 2008).
