OUR MISSION

We provide an excellent professional legal education to highly qualified and diverse students in a collaborative, multidisciplinary educational community that is deeply committed to teaching, scholarship, public service, ethical responsibility, and the pursuit of social and economic justice.

We embrace Hawai'i's diversity, location, and values. As Hawai'i's law school, we recognize a special responsibility to this state and region and to the global community. We lead in important areas of law, including environmental law, Pacific-Asian legal studies, and Native Hawaiian law.
