Greg,

Thanks.. We've done that and glad to see it's addressed. I'm impressed with the product, it literally saved us 15 liberty log watches

(1 for each department) although it added some for my IT's (more in rate training as far as I'm concerned).

V/R ITC Walters

ITC Walters,

That will be fixed in the update. In the mean time you can go in there and manually add them if you really need them in there. Thanks for the update. Stay safe out there! Greg

No problems to speak of...Hope you fix the rank/rate field...Could be useful. So far it's run great and now our medical team is inquiring about using it to track shots!
