

Greg,

I just wanted to pass on my thanks for your reaction to this. This appears to be a system that makes sense and I'm sorry I didn't know about this technology sooner.

The crew will never thank you in person, but know that Sailors and Marines will be hitting ports more efficiently and those on the ship on duty will put this system to very good use.

R/ X

Subject: RE: PAS/CAC ID Card Reader

Master Chief White,

We will get right on this. Ensure your POCs go to our website before starting up PASCAC for the first time so they understand the first steps in setting up the application. The Toughbook will arrive with the application pre-loaded and we will also include a CD of the application and the card reader utility in case you want to run it on another computer as well. Just remember this application is meant to run as a stand-alone program.

Karl: will you please get a CF-29 toughbook loaded and ship to the USS Pearl Harbor at the address below. Include a barcode scanner, card reader, and CD's with the application and card reader utility. Just get all the serial #'s for me. Thanks, I appreciate it, Greg

Subject: PAS/CAC ID Card Reader

Mr. Johnson,

I am the CMC of USS PEARL HARBOR. I have seen this system demonstrated onboard USS DUBUQUE while inport San Diego. I would like to know if there is a way to get a set up for my ship. What is/are the channel(s) I need to go through? Thank you for your assistance.
