

Crosswalk Safety

-  Look **RIGHT, then LEFT, then RIGHT** again before stepping off the curb to cross the street, and continue to **LOOK** and **LISTEN** as you go.
-  Keep looking for **cars** as you **cross** the street.
-  Take off your headphones while you cross the street.
-  Always **walk** your bike across the street or **crosswalk**.
-  Wait for **cars** to **stop** before stepping off the **curb** and into the **crosswalk**.
-  **Never walk behind** a car that has pulled up too far and is blocking the **crosswalk**. The driver might not see you and decide to back up.
-  Some **crosswalks** have **signals** that tell you when you can **walk** across.
-  Some **crosswalk signals** beep for people who can't see.
-  Obey the **Walk** and **Don't Walk** signals.
-  Even if the signal says walk, always look **RIGHT, then LEFT, then RIGHT** again for **traffic** before crossing the street, and **LOOK** and **LISTEN** as you go.
