

DEPARTMENT OF THE NAVY
COMMANDER NAVY REGION SOUTHEAST
BOX 102, NAVAL AIR STATION
JACKSONVILLE, FLORIDA 32212-0102

COMMANDER'S ENVIRONMENTAL POLICY STATEMENT

As Commander, Navy Region Southeast, I am committed to enabling warfighter readiness while protecting human health and the environment. This commitment extends to all subordinate and/or tenant commands and activities operating within our Area of Responsibility. I recognize that fulfillment of our mission is dependent upon maintaining environmental excellence. Everyone, whether military, civilian or private contractor, regardless of rank or grade, is responsible for performing their duties in a manner that protects the environment, prevents pollution and exercises proper stewardship of our natural, historic and cultural resources.

Together, we are collectively committed to comply with all federal, state and local environmental laws and regulations, ensure environmental compliance, and prevention pollution; sustain natural and cultural resources and promote continual improvement. I am further committed to the full implementation of our Environmental Management System (EMS) in accordance with E.O. 13423, "Strengthening Federal Environmental, Energy and Transportation Management" to ensure objectives and targets are met; increase community awareness of our environmental programs, and to promulgate our environmental policies to employees and stakeholders.

I expect all levels of command leadership to foster cooperation and partnerships with environmental regulatory agencies and surrounding communities by publicizing environmental initiatives and supporting community-based environmental programs.

J.C. SCOBAY, JR.
